

Commencement of Rights Trading on ASX

Lincoln Minerals Limited (LML or Company') (ASX: LML) is pleased to advise the rights under the Company's 1-for-7 Renounceable Entitlement Issue announced on Tuesday, 5 August 2025 have commenced trading today under the ASX code **LMLR**.

Under the Rights Issue timetable, rights trading will end on **Wednesday, 20 August 2025**.

As Lincoln is undertaking a renounceable entitlement issue, shareholders who do not wish to take up some or all of their entitlements can sell them on the ASX during the rights trading period. This structure provides flexibility, allowing shareholders to choose to take up their entitlements in full, partially participate, or sell some or all of their entitlements on market to realise value.

Lincoln is raising up to ~\$1.5 million (before costs) at 0.5 cents (\$0.005) per share. For every 2 new shares subscribed, eligible shareholders will receive 1.0 free attaching New Option with an exercise price of 1.0 cent and expiring on 31 December 2027.

Lincoln plans to use funds to advance its portfolio of critical minerals projects, all located on South Australia's Eyre Peninsula, including¹:

- Initial drilling at the Minbrie Copper & Base Metals Project, including site works, sample preparation, lab analysis, permitting, and regulatory compliance.
- Fieldwork across the Company's various uranium tenements, including mapping, sampling, surveys, and target generation for future drilling.
- Ongoing BAM metallurgical studies and downstream product testing related to the Kookaburra Graphite Project, to support process optimisation, offtake and strategic investor discussions.
- Technical and commercial analysis of downstream processing and value-chain integration at the Company's Green Iron Magnetite Project, as part of potential partner discussions.
- Working capital for general corporate purposes.

This announcement has been authorised for release by the Board.

Approved for release by the Board of Lincoln Minerals Limited. For further information, please visit lincolnminerals.com.au

¹ The description below is a statement of current intentions as at the date of this announcement. As with any budget, intervening events (such as project and general market risk factors affecting the Company) and new circumstances have the potential to affect the ultimate way funds will be applied. The Directors reserve the right to alter the way funds are applied on this basis.

About Lincoln Minerals

Lincoln Minerals (ASX: LML) is an Australian exploration and development company focused on advancing critical minerals projects in South Australia's world-class Gawler Craton region. Lincoln's portfolio includes high-value copper, uranium, graphite, and magnetite assets, all strategically positioned to support the global shift towards electrification, decarbonisation, and supply chain security.

The company's key projects include the Minbrie Copper & Base Metals Project, where recent exploration has confirmed a large-scale mineralised system over a 7km strike³. Lincoln is also advancing the Kookaburra Graphite Project, a high-grade, at-surface deposit on an existing mining lease, and the Green Iron Magnetite Project, a large-scale magnetite resource positioned to supply SA's emerging green steel industry. The company also holds multiple highly prospective uranium targets across its existing tenement portfolio, located in a highly prospective uranium region.

Lincoln is actively progressing exploration and development across its portfolio while seeking strategic partnerships and alternative funding pathways to accelerate project advancement.
