

Settlement of \$7.8m (€5m) Strategic Investment and Cleansing Statement

The Board of Kuniko Limited (ASX: **KNI**) (the **Company**) hereby provides notice to the ASX for the purposes of section 708A(5)(e) of the Corporations Act 2001(Cth).

The Company refers to its announcement on 3 July 2023 regarding the conditional equity subscription agreement (**Subscription Agreement**) with Stellantis N.V. for the strategic investment of A\$7.8m (€5m). The Company has today issued 16,794,726 fully paid ordinary shares (new shares) at a price of A\$0.467 per share to Stellantis in respect to the terms of the Subscription Agreement.

The Company advises that:

- a) the above-mentioned Shares were issued without disclosure to investors under Part 6D.2 of the Act;
- b) this notice is being given under section 708A (5) (e) of the Act;
- c) as at the date of this notice the Company has complied with:
 - i. the provisions of Chapter 2M of the Act as they apply to the Company;
 - ii. section 674 of the Act; and
- d) as at the date of this notice, there is no information that is “excluded information” within the meaning of Section 708A(7) and 708A(8) of the Act, except as follows:

The Company continues to progress exploration activities across its portfolio of projects in Norway and Canada. Activities include ground geophysics, downhole geophysics, geochemical sampling, geological mapping and the permitting of additional exploration areas in Scandinavia. Assay results from field work and previous drilling are pending analysis and evaluation. As at the date of this announcement the Company is not in possession of any material assay results nor has it received approval of additional exploration permits, though will keep the market informed in accordance with continuous disclosure obligations.

The notice has been authorised for release to the ASX by the Board.

Yours sincerely,

Marshall Lee

Company Secretary

Highlights

Developing **Copper, Nickel, Cobalt, Lithium and other battery metals** projects

Ethical Sourcing ensured

100% commitment to target a net **ZERO CARBON** footprint

Operations in Norway, where 98% of electricity comes from **RENEWABLE** sources

About Kuniko

Kuniko is focused on the development of copper, nickel, and cobalt projects in Scandinavia and has expanded its interests to include prospects for lithium in Canada. Kuniko has a strict mandate to maintain net zero carbon footprint throughout exploration, development, and production of its projects. Kuniko's key assets, located in Norway and Canada include:

Norway

- **Skuterud Cobalt Project:** has had over 1 million tonnes of cobalt ore mined historically and was the world's largest cobalt producer in its time. A maiden drill campaign completed in Jul. '22 intersected cobalt mineralisation in 8 of 8 drill holes at the priority "Middagshvile" target.
- **Ringerike Battery Metals Project:** 15km from Skuterud, the Ringerike licenses comprise 360 km² of exploration area, prospective for nickel, copper, and cobalt. A Ni-Cu trend of historical mines and workings crosses property and includes the brownfield Ertelien Ni-Cu mine.
- **Undal-Nyberget Copper Project:** is in the prolific Røros Copper region, a copper belt which has historical hosted Tier 1-2 mines. Historical production from Undal had grades of 1.15 % Cu, 1.86 % Zn, while adjacent, Nyberget has had surface grades up to 2% Cu.
- **Vågå Copper Project:** Project includes anomalies representing immediate targets, including a prospective horizon with a known strike extent of ~9km, A further shallow conductor can also be traced for several kilometres.
- **Gullklumpen Copper Project:** has geological continuity to significant mining districts in the region with outcropping Ni-Cu-Co mineralisation.

Canada

- **Fraser:** 150 km² of exploration area with mapped pegmatites containing spodumene. The Fraser Lithium Project is southwest of Winsome Resources\ Cancet Lithium Project, west of Patriot Battery Metal Corvette Lithium Project and northeast of Allkem's James Bay Lithium Project.
- **Mia North:** 82 km² of exploration area located on a greenstone belt known to host pegmatites with the potential for spodumene containing lithium mineralisation. Mia North is located 30km north of Q2 Metals Corp. Mia Lithium Project.

- **Nemaska South Lithium Project:** 45 km² of exploration area which contains pegmatite outcrops and is located adjacent to the Li-FT Power Lithium Project and 35km southwest of Nemaska Lithium (Whabouchi Project).

Location of Kuniko's projects in Canada

"Human rights protection is driving consumers to demand ethically extracted and sustainable sources of battery metals" – Kuniko Chairman Gavin Rezos.

The European battery market is the fastest growing in the world, however it has very limited domestic production of battery-quality metals. Kuniko's projects will reduce this almost total reliance on external sources of battery metals by offering local and sustainable sources of nickel, cobalt, and copper.

In the event a mineable resource is discovered, and relevant permits granted, Kuniko is committed to sustainable, low carbon and ethical mining practices which embrace United Nations' sustainable development goals. Kuniko activities now and in future will target sustainable practices extending to both life on land and life below water, which includes responsible disposal of waste rock away from fjords. Kuniko understands its activities will need to align with the interests of conservation, protected areas, cultural heritage, and indigenous peoples, amongst others.

Forward Looking Statements

Certain information in this document refers to the intentions of Kuniko, however these are not intended to be forecasts, forward looking statements, or statements about the future matters for the purposes of the Corporations Act or any other applicable law. Statements regarding plans with respect to Kuniko's projects are forward looking statements and can generally be identified using words such as 'project', 'foresee', 'plan', 'expect', 'aim', 'intend', 'anticipate', 'believe', 'estimate', 'may', 'should', 'will' or similar expressions. There can be no assurance that the Kuniko's plans for its projects will proceed as expected and there can be no assurance of future events which are subject to risk, uncertainties and other actions that may cause Kuniko's actual results, performance, or achievements to differ from those referred to in this document. While the information contained in this document has been prepared in good faith, there can be given no assurance or guarantee that the occurrence of these events referred to in the document will occur as contemplated. Accordingly, to the maximum extent permitted by law, Kuniko and any of its affiliates and their directors, officers, employees, agents and advisors disclaim any liability whether direct or indirect, express or limited, contractual, tortuous,

statutory or otherwise, in respect of, the accuracy, reliability or completeness of the information in this document, or likelihood of fulfilment of any forward-looking statement or any event or results expressed or implied in any forward-looking statement; and do not make any representation or warranty, express or implied, as to the accuracy, reliability or completeness of the information in this document, or likelihood of fulfilment of any forward-looking statement or any event or results expressed or implied in any forward-looking statement; and disclaim all responsibility and liability for these forward-looking statements (including, without limitation, liability for negligence).

**No new
information**

Except where explicitly stated, this announcement contains references to prior exploration results, all of which have been cross-referenced to previous market announcements made by the Company. The Company confirms that it is not aware of any new information or data that materially affects the information included in the relevant market announcements.
