All Securities issued under the Shortfall Offer shall be issued on the same terms as Securities being offered under the Offer (including the Issue Price).

Eligible Shareholders (unless a person subject to ASX Listing Rule 10.11 such as a Director) may apply for additional Securities under the Shortfall in accordance with the Entitlement and Acceptance Form and by paying the appropriate Application Monies in accordance with the instructions provided with the Entitlement and Acceptance Form.

Additionally, other investors who are not currently Shareholders who wish to participate in the Shortfall (and who are nominated by the Company in consultation with the Underwriter) may apply for Shortfall Securities by following the instructions provided with the Shortfall Application Form and paying the appropriate Application Monies. The Company or the Underwriter will provide nominated investors with access to a Shortfall Application Form for Shortfall Securities in their discretion.

If you are not a Shareholder and wish to participate in the Shortfall Offer, please contact the Company or the Underwriter.

3.8 Underwriting

The Offer is fully underwritten by Canaccord Genuity (**the Underwriter**) (subject to the Assumption), being \$6,981,788 (**Underwritten Amount**), upon and subject to the terms and conditions of the Underwriting Agreement.

Under the Underwriting Agreement, the Company has agreed to pay the Underwriter the following fees for its services (ex GST):

- (a) 1.5% of the Underwritten Amount (**Management Fee**), being \$104,727; and
- (b) 4.5% of an amount equal to the maximum possible Entitlements under the Retail Offer being \$4,329,638) less:

as an underwriting fee (**Underwriting Fee**).

If the Institutional Offer is fully subscribed, SMA fully subscribes for its Entitlement, and Ken Hall and Boneyard investments agree to sub-underwrite a maximum of \$2.2 million of the Retail Offer, Canaccord will be paid an Underwriting Fee of \$54,647. The material terms of the Underwriting Agreement are summarised in section 7.4 of this Prospectus.

3.9 Sub-underwriting

The Underwriter has entered into general sub-underwriting agreements with following entities for \$3.2 million of the Retail Offer as detailed below as at the date of this Prospectus (**Retail Offer Sub-underwriters**). The Underwriter may enter into additional sub-underwriting agreements with other Retail Offer Sub-underwriters during the course of the Offer Period.

Retail Offer Sub-underwriter	Retail Offer Securities sub - underwritten¹	Sub - underwrite Subscription \$	% of Retail Offer sub-underwritten
Ken Hall ATF Hall Park Trust	40,000,000	\$1,600,000	37.0%

Notes:

1. Plus one Attaching Option (\$0.09 exercise price, 30 June 2027 expiry) for every two Shares subscribed.

Ken Hall ATF Hall Park Trust is a related party of the Company (**Related Party Sub-Underwriter**) by virtue of him being a Director of the Company and trustee and a beneficiary of the Hall Park Trust.

The terms of the Related Party Sub-Underwriter sub-underwriting agreement are summarised in Section 7.5. The Related Party Sub-Underwriter is a general sub-underwriter that does not have priority to Shortfall and will be treated equally with all other Retail Offer Sub-underwriters in respect of Shortfall. Refer to Section 3.10 for further in relation to the Company's allocation policy in respect of Shortfall.

If the Related Party Sub-Underwriter subscribes for its full Entitlement and sub-underwriting commitment and:

- (a) the Offer is otherwise fully subscribed, the Voting Power will increase from 23.3% to a maximum of 25.4%;
- (b) no other Shares are subscribed for under the Offer, even by the Underwriter or other Retail Offer Sub-underwriters, its Voting Power will increase from 23.3% to a maximum of 29.7%; and
- (c) it will increase its Voting Power from above 20% in reliance on Section 610 item 13 of the Corporations Act.

The Related Party Sub-underwriter is not entitled to any fee from the Company or the Underwriter in respect of the amount of the Retail Offer it has agreed to sub-underwrite.

Refer to Section 4.8 for further details on the effect of the sub-underwriting on control of the Company.

3.10 Allocation of Shortfall Securities

The Directors reserve the right to issue any Shortfall at their discretion, subject to the Underwriting Agreement.

The Board and the Underwriter intend to allocate Shortfall Securities as follow:

- (a) firstly, to Eligible Shareholders (other than the Related Party Sub-underwriter or any other Institutional Offer Eligible Shareholders) who have validly applied for Shortfall Securities under the Shortfall Offer before the Closing Date with pro rata scale back if necessary. ;
- (b) then, in the Board's discretion, to new investors determined by the Board and the Underwriter that apply for Shortfall under the Shortfall Offer before the Closing Date;
- (c) then, to the Retail Offer Sub-underwriters in equal priority, including the Related Party Sub-underwriter, with pro rata scale back if necessary; and
- (d) then the Underwriter, in consultation with the Company, has the right to allocate the remaining Shortfall Securities;

with allocations (and any pro rata scale back) taking account the following factors, namely, the need to:

- (a) give preference to existing Shareholders of the Company in recognition of their ongoing support;
- (b) consider any new potential long-term or cornerstone investors identified; and
- (c) ensure an appropriate Shareholder base for the Company.

No Shortfall Securities will be issued to a party under the Shortfall if the effect would be to increase that party's Voting Power in the Company to an amount greater than 20%, other than to the Related Party Sub-underwriter (see Sections 4.7 and 4.8 of this Prospectus for further details).

Given ASX Listing Rule 10.11, the Related Party Sub-underwriter can only acquire Shortfall Securities to the extent he sub-underwrites the Retail Offer.

Notwithstanding any other provision of this Prospectus, the Directors reserve the right to issue an Applicant a lesser number of Shortfall Securities than applied for or no Shortfall Securities at all. All decisions regarding the allocation of Shortfall Securities will be made by the Directors, in conjunction with the Underwriter, and will be final and binding on all Applicants under the Shortfall Offer. As such, there is no guarantee that any Shortfall Securities applied for will be issued to Applicants.

The Company will have no liability to any Applicant who receives less than the number of Shortfall Securities applied for under the Shortfall Offer. If the Company scales back any applications for Shortfall Securities under the Shortfall Offer any application monies will be pro rata returned (without interest) in accordance with the provisions of the Corporations Act.

If ASX does not grant Official Quotation of the Shares offered pursuant to this Prospectus before the expiration of three (3) months after the date of this Prospectus, (or such period as varied by the ASIC), the Company will not issue any Shares and Options and will repay all Application Monies for the Shares within the time prescribed under the Corporations Act, without interest.

The fact that ASX may grant Official Quotation to the Shares is not to be taken in any way as an indication of the merits of the Company or the Shares now offered for subscription.

The Company does not propose to apply for Official Quotation of the Options offered pursuant to this Prospectus.

3.18 Issue of Securities

Pending the issue of the Shares and Options or payment of refunds pursuant to this Prospectus, all Application Monies will be held in trust for the Applicants in a separate bank account as required by the Corporations Act. The Company, however, will be entitled to retain all interest that accrues on the bank account and each Applicant waives the right to claim interest.

Notes:

- Based on the capital structure of the Company as at 3 February 2025, the last practical date prior to lodgement of this Prospectus, and based on the Assumption.
- The number of Shares and attaching Options to be issued depends on the total number of Shares on issue, and the number of Eligible Shareholders, at the Record Date, and the effect of rounding.
- The Company has agreed to issue the Corporate Advisor, on completion of the Offer, with 10 million Options on the same terms as the Options under the Offer in part consideration for corporate advisory services.

The issued capital of the Company on a fully diluted basis as at the date of this Prospectus is 579,846,628 Shares and on completion of the Offer (assuming Fully Subscribed) would be 851,663,691 Shares.

4.6 Potential dilution of Shareholders

Shareholders should note that if they do not participate in the Offer, their holdings are likely to be diluted by approximately 25% (as compared to their holdings and number of Shares on issue as at the date of the Prospectus). Examples of how the dilution

may impact Shareholders are set out in the table below assuming they do not subscribe for any Shares under and the Offer.

Holder	Holding at Record Date	% at Record Date	Entitlements under the Offer	Holdings if Offer not taken up	% post Offer
Shareholder 1	20,000,000	3.82	6,666,667	20,000,000	2.86
Shareholder 2	10,000,000	1.91	3,333,333	10,000,000	1.43
Shareholder 3	3,000,000	0.57	1,000,000	3,000,000	0.43
Shareholder 4	800,000	0.15	266,667	800,000	0.11

Note:

1. The dilutionary effect shown in the table is the maximum percentage assuming those Entitlements not taken up by Eligible Shareholders are placed under the Shortfall Offer or subscribed for by the Underwriter or Retail Offer Sub-underwriters.

4.7 Details of substantial holders

Based on publicly available information, the Company's substantial holders (i.e. holders with a Relevant Interest of 5% or more in the Company's Shares) as at the date of this Prospectus, and their Entitlement under the Offer, are set out in the table below.

Substantial Holder	Existing Shares held	Relevant Interest ¹	Entitlement (Shares) ²	Subscription Sum
Ken Hall ³	102,327,898	19.5%	34,109,299	\$1,364,372

Scientific Management Associates (Victoria) Pty Ltd ⁵	68,644,334	13.1%	22,881,445	\$915,258
Century Horse ⁶	63,567,618	12.1%	21,189,206	\$847,568
Boneyard Investments ⁷	33,310,789	6.4%	11,103,596	\$444,144
Total	337,913,380	64.5%	112,637,793	\$4,505,512

Notes:

1. In the event all Entitlements are accepted by Eligible Shareholders there will be no change to the substantial holders on completion of the Offer.
2. Entitlement includes one Option (\$0.09 exercise price, 30 June 2027 expiry) for every two Shares subscribed.
3. Ken Hall has indicated he intends to take up his full Entitlement under the Institutional Offer and has agreed to sub-underwrite \$1.6 million of the Retail Offer (being a maximum of 40,000,000 Shares). The terms of Ken Hall's sub-underwriting agreement are summarised in Section 7.5. Refer to Section 4.8 for further details on the effect of this sub-underwriting on control of the Company.
4. Held as trustee for the WAMCO Industries Unit Trust other than 312,500 Shares held directly by Director Alf Baker. Director Alf Baker is a shareholder and a director of Silver Tropic and an indirect unit holder in the WAMCO Industries Unit Trust.

5. Held as trustee for the WAMCO Industries Unit Trust.
6. Director Sean Hu is an associate of Century Horse, being its Chief Executive Officer and nominated by Century Horse to be its nominee Director of the Company. Century Horse has indicated it will take up its full Entitlement under the Institutional Offer.
7. Boneyard Investments has indicated it intends to take up its full Entitlement under the Institutional Offer and has agreed to sub-underwrite \$0.6 million of the Retail Offer (being a maximum of 15,000,000 Shares). Refer to Section 4.8 for further details on the effect of this sub-underwriting on control of the Company.

4.8 Effect of Offers on Control of the Company

The potential effect that the issue of the Shares and Options under the Offers will have on the control of the Company, and the consequences of that effect, will depend on a number of factors, including Eligible Shareholders interest in taking up their Entitlements and participation in the Shortfall Offer, as well as the level of participation by Eligible Shareholders and third party investors in taking up Securities under the Shortfall Offer.

4.8.1 Effect of Institutional Offer

The effect of the Institutional Offer, if fully subscribed by the Institutional Offer Eligible Shareholders, will be to dilute other Shareholders by 11.2% and increase the Voting Power of the Institutional Offer Eligible Shareholders for the period between completion of the Institutional Offer and completion of the Offer and Shortfall Offer as set out below assuming no other Shares are issued.

Institutional Offer Eligible Shareholders & Associates	Current Shares held	Voting Power¹ %	Shares held post Institutional Offer	Voting Power %
Ken Hall ²	103,127,356	19.7	137,236,655	23.3
Century Horse Limited ³	63,567,618	12.1	84,756,824	14.4
Boneyard Investments	33,310,789	6.4	44,414,385	7.5
Total	199,206,305	38.0	265,608,407	45.2

Notes:

1. Entitlement includes one Option (\$0.09 exercise price, 30 June 2027 expiry) for every two Shares subscribed.
2. Ken Hall as trustee for the Hall Park Trust. 350,000 Shares held by Brady Hall and 449,448 Shares held by Melany Hall, who are both children of Director Ken Hall. Ken Hall also holds 11,366,667 Options (\$0.09 exercise price, 30 June 2027 expiry),
3. Director Sean Hu is an associate of Century Horse, being its Chief Executive Officer and nominated by Century Horse to be its nominee Director of the Company.

As the Company is listed, any potential acquisition of Shares will be subject to the prohibitions set out in section 606 of the Corporations Act. Therefore, the Company may only issue Shares under the Institutional Offer to Ken Hall pursuant to one of the exceptions set out in section 611 of the Corporations Act.

Ken Hall's Voting Power will increase above 20% for the period between completion of the Institutional Offer and completion of the Offer and Shortfall Offer in reliance on the Item 10A Exception.

4.8.2 Effect of Retail Offer

If, following the completion of the Institutional Offer, all Retail Offer Eligible Shareholders subscribe for their Entitlements, the Voting Power of the Institutional Offer Eligible Shareholders will be diluted back to their current Voting Power, and there is not expected to be any material effect on control of the Company.

The more likely event is that a proportion of Entitlements will be taken up under the Retail Offer and some or all of the Shortfall will be issued to Eligible Shareholders and third party investors, and to sub-underwriters and nominees of the Underwriter.

4.8.3 Effect of Underwriting

As at the date of this Prospectus, the Underwriter confirms that:

- (a) its Voting Power in the Company is nil; and
- (b) it and its Associates do not hold any Securities of the Company.

The table below sets out the Underwriter's Voting Power in several scenarios where a proportion of Entitlements are taken up under the Offer.

Event	Shares held by Underwriter	% Shareholding	Underwriter Voting Power
Date of Prospectus	0	0	0
Completion of Offer (including the Shortfall Offer)			
Offer Fully Subscribed	0	0	0
Offer 75% subscribed	43,636,177	6.3	6.3
Offer 50% subscribed	87,272,354	12.5	12.5
Offer 25% subscribed	130,908,531	18.8	18.8
Offer 0% subscribed	174,544,708	25.0	25.0

In the unlikely event that no Entitlements are taken up and no Shortfall is placed other than to the Underwriter (i.e. all sub-underwriting agreements are terminated), the Underwriter's Shareholding will increase to 25% of the Company (and its Voting Power to 25%).

The Underwriter could acquire more than a 20.0% Voting Power in the Company in this scenario without breaching section 606 of the Corporations Act in reliance on the underwriting exception in Section 611 item 13 of the Corporations Act. However, the Underwriter has advised it does not intend to increase its Voting Power in the Company above 20.0% as a result of the Offer.

4.8.4 Effect of Sub-underwriting

As detailed in Section 3.9 of this Prospectus, the Retail Offer is sub-underwritten as at the date of this Prospectus as to \$3.2 million by the following Retail Offer Sub-underwriters.

Retail Offer Sub-underwriter	Retail Offer Shares sub - underwritten	Sub - underwrite Subscription \$	% of Retail Offer sub-underwritten
Ken Hall ATF Hall Park Trust	40,000,000	\$1,600,000	37.0%
Boneyard Investments	15,000,000	\$600,000	13.9%
Leeuwin Wealth	12,500,000	\$500,000	11.6%
JP Equity Partners	12,500,000	\$500,000	11.6%
TOTAL	80,000,000	\$3,200,000	74.1%

In the unlikely event that no Entitlements are taken up and the Retail Offer Sub-underwriters take up their full right to Shortfall Securities, with the Underwriter taking up the rest of the Retail Shortfall, the Underwriter's Shareholding will increase to 94,544,708 Shares (and its Voting Power to 13.5%).

In the event that Ken Hall (the Related Party Sub-underwriter) and his Associates take up their full Entitlements, and there is sufficient Retail Shortfall that he is also issued all the Shortfall Securities he has agreed to sub-underwrite, assuming the Shortfall Offer is otherwise fully subscribed and no other Shares are issued, the Voting Power of the Related Party Sub-underwriter will increase as detailed in the table below.

Related Party Sub-underwriter	Shares held at date of Prospectus ¹	Voting Power ²	Shares held on completion of Offer ^{3,4}	Voting Power
Ken Hall & Associates	103,127,346	19.7%	177,503,128	25.4%

Notes to table:

- 102,327,898 Shares held by Ken Hall as trustee for the Hall Park Trust 350,000 Shares held by Brady Hall and 449,448 Shares held by Melany Hall, who are both children of Director Ken Hall.
- If all the Institutional Offer Eligible Shareholders take up their full Entitlements under the Institutional Offer Ken Hall's Voting Power will increase from 19.7% to 23.3% for the period between completion of the Institutional Offer and completion of the Offer and Shortfall Offer. If only Ken Hall takes up his full Entitlement under the Institutional Offer, and the other Institutional Offer Eligible Shareholders take up none of their Entitlements (despite advising their intention is to take up their full Entitlements), his Voting Power will increase from 19.7% to 24.6% for the period between completion of the Institutional Offer and completion of the Offer and Shortfall Offer.
- Comprising 103,127,356 existing Shares, 34,375,782 Shares under their Entitlements and 40,000,000 Shares under Ken Hall's sub-underwriting agreement.
- A total of 37,187,893 Options will also be acquired by the Related Party Sub-underwriter and its Associates which, if fully exercised, and assuming no other Shares are issued other than under the Offer and the 37,187,893 Options, would increase the total number of Shares on issue to 782,033,393 and the Related Party Sub-underwriter's Voting Power to 29.1%. If the existing Any increase above 20.0% can only occur if and to the extent, at

the time the Options are exercised, an exception to the takeover prohibition in section 606 of the Corporations Act applies.

The Related Party Sub-underwriter could acquire more than a 20.0% Voting Power in the Company in the above scenarios without breaching section 606 of the Corporations Act in reliance on the sub-underwriting exception in Section 611 item 13 of the Corporations Act.

In the unlikely event that no Entitlements are taken up other than by the Related Party Sub-underwriter, and the Underwriting Agreement is terminated (such that all sub-underwriting agreements also terminate), the Related Party Sub-underwriter will retain up to a maximum 24.6% Voting Power acquired as a result of the Institutional Offer assuming no other Shares are issued.

5. Rights and Liabilities attaching to Shares and Options

5.1 Shares

The following summary reflects the rights attaching to Shares.

General

The rights attaching to ownership of the Shares are detailed in the Constitution of the Company and, in certain circumstances, regulated by the Corporations Act, the ASX Listing Rules, the ASX Settlement Operating Rules and the general law. A copy of the Company's constitution may be inspected during normal business hours at the registered office of the Company.

The following is a broad summary of the more significant rights, privileges and restrictions attaching to the Company's Shares. This summary is not exhaustive and does not constitute a definitive statement of the rights and liabilities of shareholders in the Company. To obtain such a statement, persons should seek independent legal advice.

All Shares issued pursuant to this Prospectus will, from the time that they are issued, rank equally with the Company's existing issued Shares.

Voting

At a general meeting, every member present in person or by proxy, attorney or representative has one vote on a show of hands and on a poll, one vote for each fully paid Share held. On a poll, partly paid Shares confer a fraction of a vote pro-rata to the amount paid up on the Share.

A poll may be demanded before a vote for a show of hands is taken, or before or immediately after the declaration of the result of the show of hands by the chair of the meeting, by at least five Shareholders present and entitled to vote on the resolution or by any one or more Shareholders representing at least 5% of the votes that may be cast on the resolution on a poll.

Dividends

Subject to the Corporations Act, the ASX Listing Rules, and the Constitution, the Directors may pay interim, special or final dividends as, in their judgment, the financial position of the Company justifies.

Subject to any special terms and conditions of issue, the amount which the Directors from time to time determine to distribute by way of dividend are divisible among the members in proportion to the amounts paid up on the Shares held by them. Interest is not payable by the Company in respect of any dividend.

Issue of shares

Subject to the Constitution, the ASX Listing Rules and the ASX Settlement Operating Rules, the Directors have the right to issue shares or grant options over unissued shares to any person and they may do so at such times as they think fit and on the conditions they think fit. Such shares may have preferred, deferred or other special

rights or special restrictions about dividends, voting, return of capital, participation in the property of the Company on a winding up or otherwise as the Directors think fit.

Variation of class rights

The rights attached to any class of shares may, unless their terms of issue state otherwise, be varied:

- (a) with the written consent of the holders of 75% of the shares of the class; or
- (b) by a special resolution passed at a separate meeting of the holders of shares of the class.

Transfer of shares

Subject to the Constitution and to the rights or restrictions attached to any shares or class of shares, holders of Shares may transfer them by a proper transfer effected in accordance with the ASX Settlement Operating Rules or an instrument in writing in any usual form or in any other form that the Directors approve.

The Directors may ask ASX Settlement to apply a holding lock, or decline to register a transfer of Shares for reasons including where the transfer is not in registrable form or where the refusal to register the transfer is permitted under the ASX Listing Rules or the ASX Settlement Operating Rules. If the Directors request a holding lock or, decline to register a transfer, the Company must give the holder of the shares (in circumstances of a holding lock request), or the party lodging the transfer (in circumstances of a refusal to register), written notice of the refusal and the reason for refusal. The Directors decision to decline to register the transfer or to apply for a holding lock is not invalidated if that notice is not given.

Small holdings

The Directors may sell the Shares of a Shareholder if that Shareholder holds less than a marketable parcel of Shares, provided that the procedures set out in the Constitution are followed. A non-marketable parcel of Shares is defined in the ASX Listing Rules and is, generally, a holding of shares with a market value of less than \$500.

Restricted Securities

In the event of a breach of the ASX Listing Rules or a breach of a restriction agreement entered into by the Company under the ASX Listing Rules relating to Restricted Securities (as defined in the ASX Listing Rules), the Shareholder holding the Restricted Securities in question shall cease to be entitled to any dividends, distribution or any voting rights in respect of those Restricted Securities during the period of such breach.

General meetings and notices

Subject to the Constitution and to the rights or restrictions attached to any shares or class of shares, each member is entitled to receive notice of and, except in certain circumstances, to attend and vote at general meetings of the Company and receive all financial statements, notices and other documents required to be sent to members under the Constitution or the Corporations Act. Shareholders may requisition meetings in accordance with the Corporations Act and the Constitution.

Winding up

Subject to any special or preferential rights attaching to any class or classes of shares, members will be entitled in a winding up to share in any surplus assets of the Company in proportion to the shares held by them, less any amounts which remain unpaid on these shares at the time of distribution. Any amount unpaid on a share is the property of the Company and may be required to be contributed to the Company in the event of a winding up.

Directors – appointment and removal

The minimum number of Directors is three and the maximum is twelve or such lower number as the Directors are authorised to determine. Directors are elected at annual general meetings of the Company. Retirement will occur on a rotational basis so that one third of the Directors and any Director who has held office for three or more years or three or more annual general meetings (excluding the managing director or, if there is more than one managing director, the first of them to be appointed) retires at each annual general meeting of the Company. The Directors may also appoint a Director to fill a casual vacancy on the Board in addition to the existing Directors who will then hold office until the next annual general meeting of the Company.

Directors – voting

Questions arising at a meeting of Directors will be decided by a majority of votes of the Directors present at the meeting and entitled to vote on the matter. In the case of a tied vote, the Chair has a second or casting vote. Where only two directors are present or qualified to vote at a meeting of directors and there is a tied vote, the Chair does not have a second or casting vote.

Directors' remuneration

Each Director is entitled to remuneration out of the funds of the Company as the Directors determine, but the remuneration of non-executive Directors may not exceed in any year the amount fixed in general meeting. The Constitution also makes provision for the Company to pay all expenses of Directors in attending meetings and carrying out their duties and for the payment of additional fees for extra services or special exertions. The total aggregate fixed sum per annum to be paid to Directors (excluding salaries of executive Directors) shall be set by the Company in a general meeting.

Reduction of share capital

Subject to the ASX Listing Rules, the Constitution and the Corporations Act, the Company may reduce its share capital including by way of an in-specie distribution of the assets of the Company.

Preference shares

The Company may issue preference shares including preference shares which have certain redemption and conversion rights. The rights attaching to preference shares are those set out in the Constitution.

Variation of the Constitution

In accordance with the Corporations Act, the Constitution can only be amended by a special resolution passed by at least 75% of the votes cast by members present and entitled to vote at a general meeting of the Company. From Listing, the Company

must give at least 28 days' written notice of its intention to propose the special resolution.

Share buy-backs

The Company may buy back shares in accordance with the provisions of the Corporations Act.

Dividend reinvestment plan

The Constitution contains a provision allowing Directors, on the terms and conditions they think fit, to implement a dividend reinvestment plan (under which any Shareholder or any class of shareholders may elect that the dividends payable by the Company be reinvested by a subscription for Shares in the Company)

ASX Listing Rules

The Constitution provides that notwithstanding anything in the Constitution, if the ASX Listing Rules prohibit an act being done, the act must not be done. Nothing in the Constitution prevents an act being done that the ASX Listing Rules require to be done. If the ASX Listing Rules require an act to be done or not to be done, authority is given for that act to be done or not to be done (as the case may be). If the ASX Listing Rules require the Constitution to contain a provision or not to contain a provision the Constitution is deemed to contain that provision or not to contain that provision (as the case may be). If a provision of the Constitution is or becomes inconsistent with the ASX Listing Rules, the Constitution is deemed not to contain that provision to the extent of the inconsistency.

5.2 Options

The Options entitle the holder to subscribe for Shares on the terms and conditions set out below.

- (a) Each Option gives the Option Holder the right to subscribe for one Share. To obtain the right given by each Option, the Option Holder must exercise the Option in accordance with the terms and conditions of the Option.
- (b) The Options will expire at 5.00 pm (WST) on 30 June 2027 (**Expiry Date**). Any Option not exercised before the Expiry Date will automatically lapse on the Expiry Date.
- (c) The amount payable upon exercise of each Option will be \$0.09 (**Exercise Price**).
- (d) The Options held by each Option Holder may be exercised in whole or in part, and if exercised in part, multiples of 5,000 must be exercised on each occasion. Where less than 5,000 Options are held, all Options must be exercised together.
- (e) An Option Holder may exercise their Options by lodging with the Company, before the Expiry Date:
 - (i) a written notice of exercise of Options specifying the number of Options being exercised; and
 - (ii) a cheque or electronic funds transfer for the Exercise Price for the number of Options being exercised;

(Exercise Notice).

- (f) An Exercise Notice is only effective when the Company has received the full amount of the Exercise Price in cleared funds.
- (g) Within 5 Business Days of receipt of the Exercise Notice accompanied by the Exercise Price, the Company will allot the number of Shares required under these terms and conditions in respect of the number of Options specified in the Exercise Notice.
- (h) The Options are only transferable with the consent of the Board.
- (i) All Shares allotted upon the exercise of Options will upon allotment rank pari passu in all respects with other Shares.
- (j) If at any time the issued capital of the Company is reorganised, all rights of an Option Holder are to be changed in a manner consistent with the Corporations Act and the ASX Listing Rules at the time of the reorganisation.
- (k) There are no participating rights or entitlements inherent in the Options and Option Holders will not be entitled to participate in new issues of capital offered to Shareholders during the currency of the Options.
- (l) An Option does not confer the right to a change in exercise price or a change in the number of underlying securities over which the Option can be exercised.

6. Risk factors

6.1 Introduction

The Securities offered under this Prospectus are considered highly speculative. An investment in the Company is not risk free and the Directors strongly recommend potential investors consider the risk factors described below, together with information contained elsewhere in this Prospectus, publicly available information, circumstances peculiar to them and that they consult their professional advisers before deciding whether to apply for Shares and Options pursuant to this Prospectus.

There are specific risks which relate directly to the Company's business. In addition, there are general risks, many if not all of which are largely beyond the control of the Company and the Directors. The risks identified in this section, or other risk factors, may have a material impact on the financial performance of the Company and the market price of the Shares.

The Securities to be issued pursuant to this Prospectus carry no guarantee with respect to the payment of dividends, returns of capital or the market value of those Securities.

The following is not intended to be an exhaustive list of the risk factors to which the Company is exposed.

6.2 Company specific risks

(a) Dilution

Upon completion of the Offer, based on the Assumption, the number of Shares in the Company will increase from 523,634,125 currently on issue to 698,178,833. This means that each Share will represent a significantly lower proportion of the ownership of the Company and a Shareholder who does not take up its Entitlement will be diluted by 25%.

(b) Effect on control of the Company

Shareholders should be aware that the Offer, unless it is fully Subscribed, may result in the Related Party Sub-underwriter, who is currently a substantial Shareholder, increasing his Voting Power of the Company. Please refer to Section 4.8 for further details.

(c) Production ramp up

The Company intends to ramp up its mining and processing operations. There is a risk that any ramp up may take longer than planned, not achieve desired kaolin product levels, revenues may be less than anticipated or costs may be higher than anticipated.

(d) Going concern

The Company has relied on the support of its shareholders to complete its capital expenditure and to fund its ongoing operations. The Company expects to achieve positive operating cashflow however is reliant upon its shareholders to ensure this position is achieved. In the event that positive

operating cashflow is not achieved or shareholders do not continue to support the Company, the Company may not be able to continue as a going concern.

(e) Additional requirements for capital

The Company believes that the funds raised under the Offer, together with existing cash flow, will be sufficient to increase production and reach positive operating cash flow.

The further development of the Company's mine and mine plant, as well as any working capital needs, may require additional funding. The Company's future capital requirements, and the Company's ability to satisfy those requirements, depend on numerous factors, many of which are beyond the control of the Company.

Any additional equity financing may dilute shareholdings. Any debt financing, if available, may involve restrictions on the Company's activities. If the Company is unable to obtain additional funding as needed, it may be required to reduce the scope of its operations or dispose of assets, as the case may be.

The Company's ability to raise funds through the issue of Shares or other securities is subject to share market conditions from time to time.

There is no certainty that the Company will be able to secure any additional funding or be able to secure funding on terms favourable to the Company and its Shareholders.

(f) Operational activities

The Company's operational activities include mining and supply of kaolin products, which are subject to operating risks that could impact the amount and quality of kaolin produced or increase the cost of production for varying lengths of time. Such difficulties include: increased costs of mining, processing, loading and equipment failures, safety incidents and accidents, freight capacity constraints and a shortage of labour. If any of these or other conditions occur in the future, they may increase the cost of the Company's activities which could adversely affect the Company's results or decrease the value of its assets.

(g) Kaolin prices and foreign exchange

As a significant portion of the Company's kaolin products are exported overseas, prices may fluctuate and may be affected by a number of factor beyond the control of the Company. Potential future production from the Company's mining tenements will be dependent upon the sustainable price of kaolin. The Company has certain agreements and orders with various customers including those in Australia and overseas. The Company's financing is denominated in Australian dollars and most of any future development and operational activities are also denominated in Australian dollars. A significant portion of its sales revenue will be denominated in US dollars and the Company's ability to fund activities and make debt repayments may be adversely affected if the Australian dollar rises against the US dollar. The Company has a hedging policy in place and will undertake hedging of its foreign exchange risks to alleviate any pressure this may cause.

A material and extended fall in kaolin prices will likely affect the timing, viability and profitability of WA Kaolin's future operations, earnings and financial position (because the cost of extraction is higher than the likely return).

(h) Tenure risks and native title

Mining tenements are only granted for a specified term and subject to periodic renewal. The renewal of the term of granted tenements is also subject to the discretion of the Minister and the Company's ability to meet the conditions imposed on the relevant licence, including payment of annual rents and meeting prescribed expenditure commitments which, in turn, is dependent on the Company being sufficiently funded. The inability of the Company to meet those conditions may have a materially adverse effect on the operations, financial position and/or overall performance of the Company.

(i) Metallurgy

Metal and/or mineral recoveries are dependent upon the metallurgical process, and by its nature contain elements of significant risk such as:

- (i) developing an economic process route to produce a saleable product; and
- (ii) changes in mineralogy in the ore deposit can result in inconsistent product recovery, affecting the economic viability of the project.

If the Company does not meet agreed product specifications, the Company's ability to sell kaolin to those distributors or customers, or to sell the kaolin at the anticipated price, will be adversely affected.

(j) Technology

Any failure or delay in developing new technology or an inability to exploit technology as successfully or cost-effectively as competitors, could result in a decrease in customer demand, which could have a material adverse effect on the Company's business and cash flows, prospects for growth, financial condition and results of its operations.

(k) Executive Management

The responsibility of overseeing the day-to-day operations and the Company's strategic management depends substantially on its senior management and key personnel. There can be no assurance given that there will be no detrimental impact on the Company if one or more of these employees cease their employment.

(l) Financial Indebtedness

WAK owes approximately \$24,877,994 to loan creditors of which approximately 53% is on an interest-free basis. It also owes \$680,125 to asset financiers (hire purchase), \$212,587 (Lease Liability) and approximately \$2,632,178 to trade creditors (including related parties). WAK has entered agreements with those creditors that have loaned it money and certain trade creditors to document the manner in which its debts will be repaid, which includes repayments in pre-defined instalments in quarterly repayments when WAK achieves free cash flow in the previous quarter.

Certain of the agreed repayments are conditional on WAK having free cash flow. Asset financing payments continue to occur in the ordinary course of business.

(m) Unforeseen expenses

The Company's cost estimates and financial forecasts include appropriate provisions for material risks and uncertainties and are considered to be fit for purpose for proposed activities of the Company. If risks and uncertainties prove to be greater than expected, or if new currently unforeseen material risks and uncertainties arise, the expenditure proposals of the Company are likely to be adversely affected.

(n) Customers

The Company is currently negotiating offtake agreements for its intended expanded production. The Company has customers in place for current production and letters of intent for a certain quantity of the intended expanded production. However, there is a risk that the Company may not secure offtake agreements in respect of any, or all, of its intended expanded production or that any offtake agreement may not be on favourable terms having regard to the differing grades of product. If the customers reneged on their contractual obligations or otherwise failed to pay for kaolin product delivered, or declined to receive further kaolin product, this would have a consequential effect on the Company's financial position.

(o) Counterparty

The Company's ability to receive payment for kaolin product produced, sold and delivered will depend on the continued creditworthiness of and contractual performance by its distributors, customers and other counterparties. If deterioration of the creditworthiness of these counterparties occurs, or if they otherwise fail to adhere to or terminate arrangements, the Company's business could be adversely affected.

6.3 Industry specific risks

(a) Resource and reserve estimates

Any resource or reserve estimates released by the Company in the future will be expressions of judgement based on knowledge, experience and industry practice. Estimates which are valid when originally calculated may alter significantly when new information or techniques become available. In addition, by their very nature, resource and reserve estimates are imprecise and depend to some extent on interpretation, which may prove to be inaccurate. As further information becomes available through additional fieldwork and analysis, the estimates are likely to change. This may result in alterations to development and mining plans which may, in turn, adversely affect the Company's operations and financial performance.

(b) Development, mining, processing and production

The business of minerals development, mining, processing and production involves many risks and may be impacted by factors including ore tonnes, yield, input prices (some of which are unpredictable and beyond the Company's control), overall availability of free cash to fund continuing

development activities, labour force disruptions, cost overruns, change in the regulatory environment and other unforeseen contingencies.

Other risks also exist such as environmental hazards (including discharge of pollutants or hazardous chemicals), industrial accidents and occupational and health hazards. Such occurrences could result in damage to, or destruction of, production and processing facilities, personal injury or death, environmental damage, delays in mining, increased production costs and other monetary losses and possible legal liability to the owner or operator of a mine or processing plant. The Company may become subject to liability for pollution or other hazards against which it has not insured or cannot insure, including those in respect of past mining activities in an area for which it was not responsible.

(c) Infrastructure and transport

The Company's ability to achieve production targets, receive goods and services and export products may be restricted by access to power networks, roads and other infrastructure.

(d) Environmental

The Company's current and proposed activities are subject to state and federal laws and regulations concerning the environment. It is the Company's intention to conduct its activities to the highest standard of environmental obligation, including compliance with all environmental laws.

Mining and processing operations have inherent risks and liabilities associated with safety and damage to the environment and the disposal of waste products occurring as a result of production. The occurrence of any such safety or environmental incident could delay production or increase production costs. Events such as unpredictable rainfall or bushfires may impact on the Company's ongoing compliance with environmental legislation, regulations and licences. Significant liabilities could be imposed on the Company for damages, clean-up costs or penalties in the event of certain discharges into the environment, environmental damage caused by previous operations or non-compliance with environmental laws or regulations.

The disposal of mining and process waste and mine water discharge are under constant legislative scrutiny and regulation. There is a risk that environmental laws and regulations become more onerous making the Company's operations more expensive.

Approvals are required for land clearing and for ground disturbing activities. Delays in obtaining such approvals can result in the delay to anticipated exploration programs or mining activities.

(e) Safety legislation

Mines and processing plant are subject to a range of safety legislation which may change in a manner that may include requirements in addition to those now in effect, and a heightened degree of responsibility for companies and their directors and employees.

(f) Competition risk

The industry in which the Company is involved is subject to domestic and global competition. Although the Company will undertake all reasonable due diligence in its business decisions and operations, the Company will have no influence or control over the activities or actions of its competitors, which activities or actions may, positively or negatively, affect the operation and financial performance of the Company's projects and business.

(g) Industrial action

The Company is subject to the risk of industrial action and work stoppages by employees and contractors who provide services which are necessary for the continued operation of the Company's businesses.

(h) Pandemic

Outbreaks of pandemics or diseases, including, for example, the outbreak of the coronavirus disease (COVID-19), may have a material adverse effect on the Company's business. The Company's share price may be adversely affected by economic uncertainty caused by pandemics such as COVID-19.

(i) Climate change

There has been increasing concern by the public and regulators globally on climate change issues. As a mining company, the Company is exposed to both transition risks and physical risks associated with climate change. Transitioning to a lower-carbon economy may entail extensive policy, legal, technology and market changes and, if demand for kaolin declines, the Company will find it difficult to commercialise any resources it discovers. Physical risks resulting from climate change can be acute or chronic. Acute physical risks refer to those that are event-driven, including increased severity of extreme weather events, such as cyclones or floods. Chronic physical risks refer to longer term shifts in climate patterns (for example, sustained higher temperatures) that may cause sea level rises or chronic heat waves. The transition and physical risks associated with climate change (including also regulatory responses to such issues and associated costs) may significantly affect the Company's operating and financial performance.

6.4 General risks

(a) Stock market fluctuations and economic conditions

The Shares to be issued under this Prospectus will be quoted on the ASX. The price of Shares may rise or fall and there is no certainty in respect of profitability, dividends, return of capital, or the price at which the Shares may trade on the ASX.

The selling value of the Shares will be determined by the stock market and will be subject to a range of factors beyond the control of the Company, and the Directors and officers of the Company. Such factors include, but are not limited to:

- (i) the demand for and availability of Shares;
- (ii) movements in domestic interest rates;
- (iii) exchange rates

- (iv) general and domestic economic activity; and
- (v) fluctuations in the Australian and international stock markets.

Returns from an investment from the Shares may also depend on general stock market conditions as well as the performance of the Company. There can be no guarantee that there will be an active market in the Shares.

Changes in economic and business conditions or government policies in Australia or internationally may affect the fundamentals which underpin the projected growth of the Company's target markets or its cost structure and profitability. Adverse changes in such things as the level of inflation, interest rates, exchange rates, government policy (including fiscal, monetary and regulatory policies), consumer spending and employment rates, amongst others, are out of the control of the Company and may result in material adverse impacts on the business or its operating results.

(b) Taxation

The acquisition and disposal of Securities will have tax consequences, which will differ depending on the individual financial affairs of each investor. All potential investors in the Company are urged to obtain independent financial advice about the consequences of subscribing for Securities from a taxation viewpoint and generally.

To the maximum extent permitted by law, the Company, its officers and each of their respective advisers accept no liability and responsibility with respect to the taxation consequences of subscribing for Securities under this Prospectus.

(c) Liquidity of Shares

There may be relatively few potential buyers or sellers of the Shares on the ASX at any time. This may increase the volatility of the price of the Shares. It may also affect the prevailing market price at which Shareholders are able to sell their Shares. This may result in a market price being received which is less than the price that Shareholders paid to acquire their Shares.

(d) Investment risks

As with any stock market investment, there are various risks associated with investing in the Company. Potential investors should consider whether the Shares offered under this Prospectus are a suitable investment having regard to their own personal investment objectives and financial circumstances and the risk factors set out in this section. Many of these risk factors are outside the Directors' control. Whilst some common risk factors are set out in this section, it is not possible to produce an exhaustive list. The Directors recommend that potential investors consult their professional advisers before deciding whether to apply for Securities.

(e) Adverse changes to government policy and taxation

Changes in relevant taxation laws, interest rates, other legal, legislative and administrative regimes, and government policies, may have an adverse effect on the assets, operations and ultimately the Company's financial performance. These factors may ultimately affect the Company's financial performance and the market price of the Securities.

(f) Insurance risks

The Company's operations are insured in accordance with industry practice, however in certain circumstances, the Company's insurance may not be of a nature or the level to provide adequate insurance cover. The occurrence of an event that is not covered or not fully covered by insurance could have a material adverse effect on the business, financial condition and results of the Company.

Insurance against all risks associated with mining exploration and production is not always available and where available the costs can be prohibitive.

(g) Claims, liability and litigation

Although the Company is not currently involved in any legal proceedings and the Directors are not aware of any legal proceedings pending or threatened against the Company, the risk of litigation remains a general risk to the Company. The Company may incur costs in making payments to settle any such claims which may not be adequately covered by insurance or at all. Any litigation or settlement may have an adverse impact on the Company's financial position.

6.5 Speculative investment

The above list of risk factors ought not to be taken as exhaustive of the risks faced by the Company or by investors in the Company. The above factors, and others not specifically referred to above, may in the future materially affect the financial performance of the Company and the value of the Shares offered under this Prospectus.

Therefore, the Shares to be issued pursuant to this Prospectus carry no guarantee with respect to the payment of dividends, returns of capital or the market value of those Shares.

Potential investors should consider that investment in the Company is highly speculative and should consult their professional advisers before deciding whether to apply for Shares under this Prospectus.

7. Additional information

7.1 Litigation

As at the date of this Prospectus, the Company Group is not involved in any legal proceedings and the Directors are not aware of any legal proceedings pending or threatened against the Company Group.

7.2 Continuous disclosure obligations

The Company is a “disclosing entity” for the purposes of section 713 of the Corporations Act and, as such, is subject to regular reporting and disclosure obligations. Specifically, like all listed companies, the Company is required to continuously disclose any information it has to the market which a reasonable person would expect to have a material effect on the price or the value of the Company’s securities.

Under section 677 of the Corporations Act, a reasonable person is taken to expect information to have a material effect on the price or value of the Company’s quoted securities if the information would, or would be likely to, influence persons who commonly invest in securities in deciding whether to acquire or dispose of the Company’s quoted securities.

The Offer is an offer of Shares which are ‘continuously quoted securities’ for the purposes of the Corporations Act, and Options to acquire Shares.

This Prospectus is a “transaction specific prospectus”. In general terms a “transaction specific prospectus” is primarily required to contain information in relation to the effect of the issue of securities on a company and the rights attaching to the securities (and where options are offered, the rights attaching to the underlying securities). It is not necessary to include general information in relation to all of the assets and liabilities, financial position, profits and losses or prospects of the issuing company.

This Prospectus is issued in circumstances where significant publicly available information in relation to the Company exists by virtue of disclosures to ASX. This Prospectus does not include all of the information that would be included in a prospectus for an initial public offering of securities in an entity that is not already listed on a stock exchange. Investors are encouraged to have regard to the other publicly available information available through the ASX in relation to the Company before making a decision whether or not to invest.

Information that is already in the public domain has not generally been included in this Prospectus other than certain information required to be included in this Prospectus by the Corporations Act.

The Company, as a disclosing entity under the Corporations Act, states that:

- (a) the Company is subject to regular reporting and disclosure obligations;
- (b) copies of documents lodged with the ASIC in relation to the Company may be obtained from, or inspected at, the offices of the ASIC; and

- (c) the Company will provide a copy of each of the following documents, free of charge, to any person on request between the date of issue of this Prospectus and the Closing Date:
- (i) the annual financial report most recently lodged by the Company with ASIC;
