Kris Martinick.

This announcement is lodged on Botala's website, www.botalaenergy.com

About Botala

ASX-listed Botala is exploring and developing production of coal bed methane (**CBM**) from its 70% owned Serowe CBM Project which is located in a high-grade CBM region of Botswana. The remaining 30% are owned by ASX-listed Pure Hydrogen Corporation Ltd pursuant to a joint venture agreement with Botala. As Operator, Botala is focussed on developing the Serowe CBM Project and related early-stage renewable energy opportunities and believes that there are considerable opportunities for Botala to commercialise CBM because of the demand for reliable and affordable energy in Botswana and neighbouring countries.
