

ASX ANNOUNCEMENT

28 October 2025

Quarterly Activities Report to 30 September 2025

Black Dragon Gold (ASX:BDG; “Black Dragon” or “the Company”) is pleased to provide the following quarterly activities report for the period ending 30 September 2025.

Operational update

Salave PIER application goes out for public consultation

During the quarter a public consultation process was launched by the Asturias’ SEKUENS Agency (“Agency”), the body charged with evaluating PIER (“Strategic Project”) applications.

The Salave Project’s (“Salave” or the “Project”) application was first submitted in February 2025 (refer [ASX announcement](#) 10 February 2025) following the creation of new legislation to accelerate economically important projects for the region in the December prior.

Black Dragon’s Strategic Project application was made available for public consultation from 28 July until 25 August 2025. The process followed the independent compilation of results from detailed opinion polls carried out in the Asturias region and more specifically Tapia de Casareigo municipality in which Salave is located.

Results determined that Salave would have majority support of more than 63% of the community, provided the Company complies with its legal obligations and stated commitments.

Almost two thirds of those polled showed little or no confidence that the region would be able to offer job opportunities in the future. Overwhelmingly, the community asked to see sustainable development through investment, quality job creation and alignment with the objectives of the Municipal Council. This research is particularly valuable given the Municipality’s population declined 9 per cent in the decade to 2024, and for the first time in its history there are more retired than employed people living in the local community.

The Company continues to work with the Agency to progress its PIER application towards a formal decision.

WA exploration and tenement holding

No exploration activity was conducted at the Company’s Ivan Well exploration licence (E69/3818) near Wiluna in the northern Goldfields.

Corporate update

Director resignation

During the quarter Non-Executive Director Ms Heidy Arocha has resigned from the Company’s Board for personal reasons (refer [ASX announcement](#) 15 September 2025).

ABOUT BLACK DRAGON GOLD

Black Dragon Gold is the 100% owner of the 1.5m+ oz high grade Salave Gold Project, situated in the Asturias province in Northern Spain.

ABOUT BLACK DRAGON GOLD

Black Dragon Gold Corp. (ASX:BDG) is an exploration company with a global portfolio of exploration assets. The Company's flagship project is Salave, one of the largest undeveloped gold projects in Europe. Salave is 100 per cent owned by the Company and located in the north of Spain in the Principality of Asturias.

The Company acquired Australian mineral explorer Marlee Gold Pty Ltd. The Company retains one exploration permit in Western Australia, Ivan Well, presenting an opportunity to explore for surface and sub-surface gold in the future. For more information visit www.blackdragongold.com.

ABOUT THE SALAVE PROJECT

The project has a Measured Mineral Resource of 1.6 million tonnes grading 3.82 g/t Au, containing 0.2 million ounces of gold; an Indicated Mineral Resource of 11.3 million tonnes grading 2.90 g/t Au, containing 1.06 million ounces of gold, plus Inferred Resources totalling 4.1 million tonnes grading 2.34 g/t Au, containing 0.31 million ounces of gold.

The information in this announcement that relates to the Mineral Resource estimate for the Salave project was released by the Company in its news release entitled 'Updated Scoping Study Salave Gold' dated 31 March 2025.

Black Dragon confirms that it is not aware of any new information or data that materially affects the information included in the original announcement and that all material assumptions and technical parameters underpinning the estimate in the previous announcement continue to apply and have not materially changed.

A full technical report summarising the Mineral Resource estimate completed by Bara Consulting is available on the Company's web site (www.blackdragongold.com). In addition to the current Mineral Resource, historical exploration work suggests there is the potential for additional mineralisation within Black Dragon's landholdings.
