Eureka Right to Mine Agreement Terminated

Javelin Minerals Ltd (**ASX: JAV**) advises that its Eureka Gold Project right to mine agreement with mining services provider MEGA Resources has been terminated by mutual consent.

MEGA remains a material shareholder in Javelin following their investment of $1,000,000 in the share placement undertaken on 17 September 2025, and both parties believe this is in the best interest to maximise the economic value of the Eureka Gold Project for all Javelin shareholders.

Under the right to mine agreement, which was announced on September 17, 2025, MEGA was to provide geological, engineering, mining and transport services as well as $25m in project financing for Javelin's Eureka Gold Project near Kalgoorlie.

Following recent discussions and commercial developments around availability of ore processing capacity in the Kalgoorlie region, both parties have mutually decided to terminate the agreement.

This ASX announcement has been authorised for release by the Board of Javelin Minerals Limited.
