About Aspire Limited

Aspire Limited (ASX: AKM) is developing premium coking coal deposits in an environmentally sensitive manner to support global sustainable development, deliver shared prosperity to local host communities and long-term growth for our shareholders.

Aspire's assets include the Ovoot Coking Coal Project (100%) and Nuurstei Coking Coal Project (90%) – both assets are strategically located proximal to end markets in Khuvsgul aimag (province) of north-western Mongolia.

The Ovoot Coking Coal Project (Ovoot) is world-class in terms of scale, product quality and project economics. With all major approvals in place, Aspire is now on a pathway to production with the view to mine 'fat' coking coal (classified within the highest category of coking coals) via open pit methods, beneficiate it onsite, transport it by truck to a Company owned coal unloading and loading facility near Erdenet, and deliver it onward to end markets with sustained supply constraints, utilising the existing trans-Mongolian rail network.

Aspire's transformational projects make the company uniquely positioned to deliver value and build a sustainable future in Mongolia. Aspire is dedicated to mining excellence and is deeply committed to operating in a responsible manner that prioritises the well-being and advancement of our host communities. Our operations will see the construction of a new highway for public use and the creation of significant employment opportunities.

The Company is led by a proven team with deep Mongolian mining and logistics experience and benefits from strategic alliances with key stakeholders as well as substantial support from Mongolian investors.
