

CULPEO MINERALS JOINS INVESTORHUB PORTAL

Culpeo Minerals Limited (ASX:CPO, OTCQB:CPORF) (**Culpeo** or the **Company**) advises that it has entered into a partnership with **InvestorHub**, a direct-to-investor engagement software company that provides listed companies with the digital capabilities to build direct and interactive relationships with investors.

In line with the Company's commitment to transparent and accessible communication, Culpeo has launched its **interactive InvestorHub** - a central platform that brings together company updates, announcements, videos, and investor-focused insights in one place.

The new hub will serve as a key channel for shareholders and stakeholders to stay up-to-date on Culpeo's exploration activities and growth strategy across its portfolio of Chilean copper projects. The Company will also be regularly uploading new content to the hub, including exploration updates, project overviews, and interviews with management.

Culpeo's Interim Executive Chairman, **Geoff McNamara**, commented: Culpeo is delighted to launch InvestorHub. Our InvestorHub is your go-to destination for timely updates and insights as we expand the Lana Corina discovery, advance the next stage at La Florida after our successful maiden drilling program and build upon our portfolio of high-quality copper assets across the world's leading copper-producing region.

ABOUT CULPEO MINERALS LIMITED

Culpeo Minerals Limited is committed to copper exploration, discovery and development, with strategic assets in Chile, the world's leading copper-producing nation. The Company is focused on high-grade copper systems within Chile's infrastructure-rich Coastal Cordillera.

Culpeo has recently announced a significant copper and molybdenum discovery at the Lana Corina Project and acquired the highly prospective Fortuna and Jupiter copper-gold projects.

The Lana Corina and Fortuna Projects are located in Chile's Coquimbo Region, approximately 350km north of Santiago, in proximity to the world-class Los Pelambres mine. The Jupiter Project is situated in the Antofagasta Region, renowned for hosting multiple tier-one copper and gold operations, including Escondida, Collahuasi and El Teniente.

These project areas feature substantial outcropping high-grade copper systems, and importantly, they are supported by well-established regional infrastructure, including roads, power transmission lines, water sources and a strong local mining industry - factors critical in enabling cost-effective and efficient development.

The Company is led by a highly experienced board and management team with more than two decades of operational and exploration experience in Chile. Culpeo's objective is to deliver Shareholder value through the exploration, acquisition and development of high-grade, near-surface copper systems.
