17 October 2025

Aircore Drilling Commences at Beatty Park Sth

Tambourah Metals Ltd (ASX:TMB) ("Tambourah" or "the Company") is pleased to announce the commencement of aircore drilling at Beatty Park Sth on 17 October 2025, where the rig is testing the area immediately southeast and along strike from the high-grade gold drill results reported in BPAC016 (***6m at 25.8g/t Au from 30m***) and BPAC028 (***10m at 38.9g/t Au from 22m***)[1].

The program comprises ~4,000m and will cover the strike extent of the 500m long gold in soil anomaly associated with the Beatty Park Sth mineralisation. Four drill traverses are planned southeast from BPAC028, testing a further 120m of strike, to the southern extent of the soil anomaly.

Please see Tambourah's recent presentation for further information https://www.tambourahmetals.com.au/invest.

About Tambourah Metals

Tambourah Metals is a West Australian exploration company established in 2020 to develop gold and critical mineral projects. Tambourah is exploring for Gold and Critical Minerals at the Tambourah, Shaw River and Speewah Nth projects and Gold at the Bryah project in the Murchison region. Since listing the Company has extended the portfolio to include additional critical mineral projects in the Pilbara and gold projects in the Bryah, acquiring strategic positions in districts with known endowment and production.

Forward Looking Statements

Certain statements in this document are or may be “forward-looking statements” and represent Tambourah’s intentions, projections, expectations, or beliefs concerning among other things, future exploration activities. The projections, estimates and beliefs contained in such forward-looking statements don’t necessarily involve known and unknown risks, uncertainties, and other factors, many of which are beyond the control of Tambourah Metals, and which may cause Tambourah Metals actual performance in future periods to differ materially from any express or implied estimates or projections. Nothing in this document is a promise or representation as to the future. Statements or assumptions in this document as to future matters may prove to be incorrect and differences may be material. Tambourah Metals does not make any representation or warranty as to the accuracy of such statements or assumptions.

The references in this announcement to Exploration Results were reported in accordance with Listing Rule 5.7 in the following announcements:

- "High-Grade Gold up to 126g/t at Beatty Park Sth". 4th August 2025.
- "Exceptional Gold Results from Re-sampling Beatty Park Sth". 13th October 2025.

The Company confirms it is not aware of any new information or data that materially affects the information in the original reports and that the form and context in which the Competent Person's findings are presented have not been materially modified from the original reports.

Competent Person's Statement

The information in this report that relates to Exploration Results is based on information compiled by Mr. Bill Clayton, Geology Manager and a shareholder and Director of the Company, who is a Member of the Australian Institute of Geoscientists. Mr. Bill Clayton has sufficient experience which is relevant to the style of mineralisation and type of deposits under consideration and to the activity which he is undertaking to qualify as a Competent Person as defined in the 2012 Edition of the Australasian Code for Reporting of Exploration Results, Mineral Resources and Ore Reserves. Mr. Clayton consents to the inclusion in the report of the matters based on his information in the form and context in which it appears.
