

INVESTOR AND SHAREHOLDER WEBINAR

Managing Director Paul L'Herpinere to host a live investor webinar on Tuesday 26th August 2025

Strickland Metals Limited (ASX: STK) (**Strickland** or the **Company**) is pleased to advise that its Managing Director, Paul L'Herpinere, will host a live investor webinar on Tuesday, 26 August 2025 to provide an update to investors on recent drilling results and exploration progress at the Company's Rogozna Gold & Base Metals Project in Serbia.

Mr L'Herpinere will provide a comprehensive update on the Rogozna Project and the Company's plans to progress the Project towards development, while also providing a brief update on recent corporate developments including the completion of the sale of the Yandal Gold Project in WA to Gateway Mining Limited (ASX: GML).

Webinar Details

The webinar will be hosted live and will commence at 12.00pm AWST / 2.00pm (AEDT) on Tuesday, 26 August 2025. Investors, shareholders and media can register to join the webinar via the link below:

<https://www.bigmarker.com/read-corporate/strickland-metals>

At the conclusion of the presentation, participants can submit questions to Mr L'Herpinere live via the Q&A tab on the webinar platform.

Alternatively, investors can submit questions prior to the commencement of the webinar to Read Corporate at info@readcorporate.com.au.

A recording of the webinar will be made available on the Company's website and social media channels.

About Strickland

Strickland Metals offers a rare investment opportunity among ASX-listed resources companies, with a significant Mineral Resource and a strong balance sheet. Strickland is driven by the excitement of discovery and the quest to create significant long-term value for its shareholders.

Rogozna Project

The Rogozna Gold and Base Metals Project, located in the Raška District of southern Serbia, lies within the globally significant Tethyan Metallogenic Belt, which hosts multiple, giant, porphyry-related deposits. Covering approximately 184km², Rogozna comprises four Exploration Licences and contains a JORC Inferred Mineral Resource of 7.4Moz AuEq¹, with the potential to become one of the largest undeveloped gold deposits in the world.

¹Refer to "Table 1: Rogozna JORC Inferred Mineral Resource Estimates" at the end of this release for further details regarding the Rogozna Resource.

This release has been authorised by the Company's Managing Director, Paul L'Herpinere.

Competent Person's Statement

The information in this announcement that relates to Exploration Results and Mineral Resources has been extracted from various Strickland ASX announcements and are available to view on the Company's website at www.stricklandmetals.com.au or through the ASX website at www.asx.com.au (using ticker code "STK").

The Company confirms that it is not aware of any new information or data that materially affects the information included in the original market announcement and that all material assumptions and technical parameters underpinning the Mineral Resource Estimates in the relevant market announcement continue to apply and have not materially changed. The Company confirms that the form and context in which the Competent Person's findings are presented have not been materially modified from the original market announcement.

Forward-Looking Statements

This announcement may contain certain forward-looking statements, guidance, forecasts, estimates, prospects, projections or statements in relation to future matters that may involve risks or uncertainties and may involve significant items of subjective judgement and assumptions of future events that may or may not eventuate (Forward-Looking Statements). Forward-Looking Statements can generally be identified by the use of forward-looking words such as "anticipate", "estimates", "will", "should", "could", "may", "expects", "plans", "forecast", "target" or similar expressions and may include, without limitation, statements regarding plans, strategies and objectives of management, anticipated production and expected costs. Indications of, and guidance on future earnings, cash flows, costs, financial position and performance are also Forward Looking Statements.

Persons reading this announcement are cautioned that such statements are only predictions, and that actual future results or performance may be materially different. Forward-Looking Statements, opinions and estimates included in this announcement are based on assumptions and contingencies which are subject to change, without notice, as are statements about market and industry trends, which are based on interpretation of current market conditions. Forward-Looking Statements are provided as a general guide only and should not be relied on as a guarantee of future performance.

No representation or warranty, express or implied, is made by Strickland that any Forward-Looking Statement will be achieved or proved to be correct. Further, Strickland disclaims any intent or obligation to update or revise any Forward-Looking Statement whether as a result of new information, estimates or options, future events or results or otherwise, unless required to do so by law.

Table 1: Rogozna JORC Inferred Mineral Resource Estimates

Prospect	Tonnes (Mt)	AuEq (g/t)	Au (g/t)	Cu (%)	Ag (g/t)	Pb (%)	Zn (%)	AuEq (Moz)	Au (Moz)	Cu (kt)	Ag (Moz)	Pb (kt)	Zn (kt)
Medenovac (February 2025)^A	21	1.9	0.77	0.27	6.3	0.11	1.54	1.28	0.52	57	4.3	23	320
Shanac (March 2025)^A	150	1.1	0.64	0.12	5.8	0.24	0.34	5.30	3.09	180	28.0	360	510
Copper Canyon (October 2021)^B	28	0.9	0.40	0.30	-	-	-	0.81	0.36	84	-	-	-
Total^C	199	1.2	0.62	0.16	5.0	0.19	0.41	7.40	3.97	320	32.2	380	830

Table Notes:

- A. For Medenovac (February 2025) and Shanac (March 2025) AuEq grade is based on metal prices of gold (US\$2,250/oz), copper (US\$10,000/t), silver (US\$25/oz), lead (US\$2,200) and zinc (US\$3,000/t) and overall metallurgical recoveries of 80% for these metals. These estimates are based on Strickland's interpretation of potential long term commodity prices and their interpretation of initial metallurgical test work and use the following formula: Au Equivalent (g/t) = Au (g/t) + 1.38 x Cu(%) + 0.011 x Ag (g/t) + 0.304 x Pb(%) + 0.413 x Zn(%). It is the Company's opinion that all the elements included in the metal equivalents calculations have a reasonable potential to be recovered and sold. A 1.0 g/t AuEq cut-off has been used for the Medenovac Resource Estimate. A 0.60 g/t AuEq cut-off has been used for the Shanac estimate.
- B. For Copper Canyon (October 2021) AuEq grade based on metal prices of gold (US\$1,750/oz), copper (US\$10,000/t), and metallurgical recoveries of 80% for both metals. These estimates are based on the Company's assumed potential commodity prices and recovery results from initial and ongoing metallurgical test work and use the following formula for Copper Canyon: AuEq (g/t) = Au (g/t) + 1.55 x Cu (%). It is the Company's opinion that all the elements included in the metal equivalents calculations have a reasonable potential to be recovered and sold. A 0.4g/t AuEq cut-off has been used for the Copper Canyon Resource Estimate.
- C. Rounding errors are apparent in the summation of total resources.

Please refer to the Company's ASX announcements dated:

- 27 March 2025 titled: "Shanac Resource Increases to 5.30Moz AuEq, Taking Rogozna to 7.40Moz AuEq" for full details regarding the Shanac Mineral resource Estimate;
- 19 February 2025 titled: "Rogozna Resource Increases by 23% to 6.69Moz AuEq" for full details regarding the Medenovac Mineral Resource Estimate; and
- 17 April 2024 titled: "Acquisition of the 5.4Moz Au Eq Rogozna Gold Project" for full details regarding the Copper Canyon Mineral Resource Estimate.
