

WWI EXECUTES AGREEMENTS FOR USD12.5M NEBARI LOAN FACILITY

Further to the announcement dated 8 September 2025, West Wits Mining Limited (**ASX:WWI**) (**OTCQB:WMWWF**) ("**West Wits**" or the "**Company**") is pleased to announce it has executed definitive legal agreements for an initial tranche of USD 12.5 million (approx. AUD 19.11 million at current exchange rate) of up to a total USD 35.0 million ("**Loan Facility**") from Nebari Natural Resources Credit Fund II LP ("**Nebari**"). The Loan Facility is subject to the conclusion of formal authorities and the fulfilment of conditions precedent contained therein (which are described below).

Funds from the Loan Facility, once drawn, will be used to advance development of the Company's Qala Shallows Gold Project ("**Qala Shallows**" or the "**Project**"), Stage 1 of its larger Witwatersrand Basin Project ("**WBP**") in South Africa.

HIGHLIGHTS

- **Definitive Loan Agreement Executed:** West Wits executes agreements with Nebari Natural Resources Credit Fund II LP which will allow for an initial USD 12.5 million (Tranche 1) to be drawn down subject to the fulfilment of the conditions precedent contained therein.
- **Fully Funded Pathway to First Gold:** Combined with the Company's existing cash, the Loan Facility will fund mine development, operating requirements, financing costs, and general working capital to fast-track Qala Shallows into gold production.
- **Scalable Funding:** Under the Loan Facility, Nebari may provide up to an additional USD 22.5 million (Tranches 2 & 3) over the next two years on the same commercial terms, offering scalability as the Project advances, subject to further conditions and approvals.
- **Shareholder Interests Protected:** Loan Facility is structured to preserve flexibility, maintaining optionality to access an existing ZAR 875M (approx. USD 50 million) South African bank facility.
- **Near Term Milestones:** Qala Shallows mine site mobilisation nearing completion; underground equipment delivery scheduled for early October 2025 to enable first ore production later in the month.

West Wits Mining's CEO, Rudi Deysel, commented:

"Finalising the agreements and securing this USD 12.5 million loan with Nebari marks a major milestone for West Wits and provides the critical funding required to deliver Qala Shallows into production. Importantly, the structure of the facility gives us both immediate development capital and the flexibility to scale with additional funding as our project advances."

"With mobilisation at site nearing completion and the first full suite of underground equipment about to arrive, we are firmly on track to extract our first ore in October and achieve first gold pour in Q1 2026. This is a pivotal step towards establishing a long-life, steady-state gold operation within the Witwatersrand Basin, one of the world's most renowned gold districts."

We are pleased to partner with Nebari, whose deep understanding of the resources sector aligns well with our strategy. This financing underscores the strength of our project and positions us to create meaningful value for our shareholders as we transition from developer to producer."

Neabri's Managing Director, Justin Anderson, commented:

"We are excited to partner with a strong team, company, and project, and look forward to supporting West Wits as Qala Shallows advances toward production. This is a quality opportunity, and we are pleased to play a role in bringing it into operation."
