

2024 Annual General Meeting – Chairman's Address

Infini Resources Ltd (ASX: **I88**, "Infini" or the "Company") is pleased to share the following Chairman's Address, to be presented by Mr Robert Martin at today's Annual General Meeting.

Chairman's Address

Ladies and Gentlemen,

As Chairman of the Board of Directors of Infini Resources it is my great pleasure to welcome you to our first Annual General Meeting as a public listed company. I extend my gratitude to our valued investors, stakeholders, board and management teams, contractors, as well as the First Nation groups and community members on whose land we operate.

Earlier this year, we successfully listed on the Australian Securities Exchange (ASX), establishing Infini Resources as a dynamic and ambitious energy metals explorer. This achievement is underpinned by a carefully curated portfolio of prospective projects.

2024 has been an exceptionally busy and successful year for Infini Resources. As we look ahead to 2025, we are going to maintain this momentum with plans to expedite drilling activities at our flagship Portland Creek Uranium Project - a project that offers a significant value proposition for our shareholders and host to some of the world's highest uranium in soil grades. Since staking Portland Creek only late last year, we are now poised to drill a number of high priority targets which is a significant milestone to achieve within such a short timeframe. The rapid progress of exploration at this project is a testament to the drive that the board and management have in creating shareholder value by advancing its key projects diligently.

Throughout 2024, the Company has achieved numerous operational milestones, as detailed in our Annual Report and recent announcements. In addition, we have assembled a strong local team in Newfoundland and Labrador, Canada, and cultivated positive working relationships with federal and local Canadian authorities and communities. These partnerships are critical to our long-term success

Looking ahead, shareholders have a lot to look forward to in 2025. The Portland Creek Project has quickly emerged as the cornerstone of our portfolio, particularly as the uranium market experiences a robust resurgence. Rising global demand for nuclear energy as a reliable power source, coupled with tightening supply conditions and escalating prices, positions Infini Resources to capitalise on this critical market trend.

I would like to extend my gratitude to the entire Infini team in Australia and Canada for their unwavering dedication to advancing the Company's projects.

We also thank our shareholders for your continued support and for joining us here today. The year ahead promises to be an exciting period for our Company, and we look forward to keeping you updated on our progress. We wish you all a safe and joyous conclusion to 2024 and much success in 2025.
