ASX ANNOUNCEMENT 17 OCTOBER 2025

VTX Secures Adjoining Exploration Licence Application 6978 (“Dun Dun”) *Positive Addition to the Producing High grade Reward Gold Mine*

HIGHLIGHTS:

- Vertex Minerals Limited (Vertex) successfully applied for Exploration Licence Application (ELA) 6978 “Dun Dun”.
- “Dun Dun” covers the middle ground between Vertex Exploration Licences EL5868 “Hill End” and EL6996 “Hargraves”, giving Vertex access to approximately 50kms of contiguous geology along the Hill End – Hargraves trend (see attached figure).
- Historic gold workings are situated at “Dun Dun”, approximately 15km NNE of Hill End village.
- The Dun Dun Prospect is defined by gold bearing quartz veins associated with the Hill End Anticline, key features include:
 - **Dun Dun Vein:** Worked from several shafts, the deepest reaching 106.7m. The vein is 20–30cm thick and extends for >1km.
 - **Longmore-Reward Vein:** Parallel to the Dun Dun Vein, 7.5–10cm wide and gold-bearing, where intersected by faults
- Gold mineralisation is hosted in laminated quartz veins within turbiditic greywacke and slates, much like the Reward Gold Mine.

Vertex’s Executive Director, Tully Richards commented: *“The Dun Dun workings are a very good analogy to veins currently being mined by Vertex further to the south and make an important addition to the Company’s future exploration targets and resource development opportunities. They value add to our future gold inventory and the producing Reward Gold Mine”*

This announcement has been approved by the Vertex Executive Chairman

COMPETENT PERSONS STATEMENT

The information in this report that relates to Exploration Results and Exploration Targets is based on information compiled by Mr. Roger Jackson, a Director and Shareholder of the Company, who is a 25+ year Fellow of the Australasian Institute of Mining and Metallurgy (FAusIMM), Fellow of the Australian Institute of Geoscientists (AIG) and a Member of Australian Institute of Company Directors. Mr. Jackson has sufficient experience which is relevant to the style of mineralisation and type of deposits under consideration and to the activity which he is undertaking to qualify as a Competent Person as defined in the 2012 Edition of the “Australasian Code for Reporting of Exploration results, Mineral Resources and Ore Reserves”. Mr. Jackson consents to the inclusion of the data contained in relevant resource reports used for this announcement as well as the matters, form and context in which the relevant data appear.

FORWARD LOOKING STATEMENTS AND IMPORTANT NOTICE

This report contains forecasts, projections and forward-looking information. Although the Company believes that its expectations, estimates and forecast outcomes are based on reasonable assumptions it can give no assurance that these will be achieved. Expectations and estimates and projections and information provided by the Company are not a guarantee of future performance and involve unknown risks and uncertainties, many of which are out of Vertex Minerals’ control.

Actual results and developments will almost certainly differ materially from those expressed or implied. Vertex Minerals has not audited or investigated the accuracy or completeness of the information, statements and opinions contained in this announcement. To the maximum extent permitted by applicable laws, Vertex Minerals makes no representation and can give no assurance, guarantee or warranty, express or implied, as to, and takes no responsibility and assumes no liability for the authenticity, validity, accuracy, suitability or completeness of, or any errors in or omission from, any information, statement or opinion contained in this report and without prejudice, to the generality of the foregoing, the achievement or accuracy of any forecasts, projections or other forward looking information contained or referred to in this report. Investors should make and rely upon their own enquiries before deciding to acquire or deal in the Company’s securities.

JORC COMPLIANCE STATEMENTS

Where statements in this announcement refer to exploration results which previously been reported, the Company confirms that it is not aware of any new information or data that materially affects the information included in the original announcements, and in the case of estimates of Mineral Resources, that all material assumptions and technical parameters underpinning the estimates in the relevant market announcements continue to apply and have not materially changed. The Company confirms that the form and context in which the Competent Persons’ findings are presented have not materially modified from the original market announcements.
