Aurum's Projects

The flagship **2.41Moz Boundiali Gold Project** is comprised of seven neighbouring tenements:

BM gold project JV 80% interest

Can earn 80-88% interest in future gold production company (Government gets 10% free carry from local partner):

- 80% if local partner contributes 11% capex
- 85% if local partner does not contribute capex – they go to 5% free carry
- 88% if local partner sells us 3% of their interest they go to 2% free carry

BD gold project JV 80% interest

Can earn 80-88% interest in future gold production company (Government gets 10% free carry from local partner):

- 80% if local partner contributes 11% capex
- 85% if local partner does not contribute capex – they go to 5% free carry
- 88% if local partner sells us 3% of their interest they go to 2% free carry

BST gold project 100% interest

Application for mining exploitation licence was lodged with the Ministry of Mines, Petroleum and Energy in March 2025.

90% interest in future gold production company (Government get 10% free carry from Aurum interest)

BN gold project JV

Aurum is earning interest through carrying out exploration to earn 70% interest in three stages:

- Stage 1: Aurum earns 35% interest by spending USD 1.2 million within 36 months of license grant
- Stage 2: Aurum earns 51% interest by spending USD 2.5 million within 60 months of license grant
- Stage 3: Aurum earns 70% interest upon completion of a pre-feasibility study on the tenement.

Diamond drilling conducted by Aurum will be valued at US\$140 per meter for expenditure calculations

Upon grant of a mining exploitation license, ownership structure will be: Aurum (70%), GNRR (20%), Ivorian Government (10%)

BE Encore JV Project

Applications (No. 1740 and No. 1745) totalling nearly 320km² are strategically located between Aurum's existing BD and BST tenements and south of BM, offering growth potential for its 1.6Moz Boundiali Gold Project.

Staged earn-in agreement aligns expenditure with milestones for each permit area:

- Path to 51% interest: 4,000m diamond drilling.
- Path to 80% interest: Additional 8,000m diamond drilling (total 12,000m) OR US\$2.5M nominal expenditure.

Mako Gold Pty Ltd is a wholly owned subsidiary of Aurum and holds the following projects:

0.87Moz Napié Gold Project. 90% Mako and African American Investment Fund (AAIF) has a 10% interest in the Napié Project free carried to completion of a feasibility study.

Korhogo Project (100%), significant manganese discovery

Brobo Project (100%), prospective for lithium/rare earths
