ICE Copper-Gold Project

Yukon Province, Canada

During the December quarter, the Company achieved a major milestone at its flagship ICE Copper-Gold Project through the execution of an Exploration Consent Agreement (“ECA”) with the Ross River Dena Council (“RRDC”).

The ECA formally secures access for ongoing and future exploration activities at ICE and provides a clear framework for collaboration with Traditional Owners. This agreement is a critical enabler for Vita’s planned exploration activities and positions the Company to commence preparations for its next field season, anticipated to begin in Northern Hemisphere Spring 2026, subject to weather conditions.

Ninnis Gold Project

Northern Goldfields, Western Australia

During the quarter, Vita executed a Share Sale and Purchase Agreement with Raymond Muskett (who is a director of Vita) and Kevin Woodthorpe (who is an unrelated party of Vita) to acquire the entire issued capital of Muskwood Pty Ltd (“Acquisition Agreement”), which owns the Ninnis Gold Project (E39/2110) located in Western Australia’s Northern Goldfields (“Acquisition”).

The Ninnis Project is an early-stage gold exploration asset covering approximately 25 km², located around 6 km north of Genesis Minerals’ Mount Morgans Gold Mining Centre, within a world-class gold province hosting numerous multi-million-ounce deposits (see Figure 1).

Figure 1. Ninnis Gold Project location

The Ninnis Gold Project shares key geological characteristics with the nearby Mount Morgans Gold Mine, including mafic rocks and banded iron formations (“BIF”), with additional structural complexity along the eastern Ninnis Shear. Historical exploration was limited by shallow drilling and extensive surface cover, which masked underlying mineralisation.

No modern, large-scale exploration has previously been undertaken at Ninnis. Historical exploration identified gold-in-soil anomalies that have not been systematically followed up using modern techniques.

More recent sub-surface soil sampling beneath sheetwash has identified strong gold anomalies aligned with magnetic features along the Ninnis Shear, extending over approximately 4km of strike and widths of up to 400m. On the western side of the Project, Mount Morgans-style BIF mineralisation continues north under cover and re-emerges near McKenzie Well, representing a second underexplored and highly prospective target zone within a proven gold district.

Vita has commenced planning for a maiden auger geochemistry program, with applications underway for approximately 1,200 auger holes, of which a minimum of ~1,000 holes are planned to be completed. A drilling contractor has been appointed, with mobilisation expected following receipt of necessary approvals.

The Company's in-house technical team continues to review historical data and refine exploration targeting, with the aim of progressing toward a comprehensive drilling program following auger results.

Gyttorp REE Project

Sweden

The project remained under re-evaluation with a plan expected to be announced as soon as practicable.

Cometa Copper Project

Chile

The project is currently under strategic review.

Harley and Mariner Projects

North West Territories, Canada

The projects remained under re-evaluation.

Morrissey Lithium Project

Western Australia

The project was surrendered during the quarter.

Corporate

Share Placement

During the quarter the Company received commitments to raise \$475,000 through a share placement to sophisticated and professional investors, comprising predominantly existing shareholders and Directors.

At-The-Market (ATM) Subscription Agreement

During the quarter, the Company entered into an At-The-Market Subscription Agreement with Dolphin Corporate Investments, providing up to \$500,000 of standby equity capital over a three-year period.

Strategic Technical Appointment

During the quarter, Vita announced the strategic technical appointment of geologist and geoscientist Sherifa Munkailah as Geologist-Project Due Diligence and Evaluation.

General Meeting of Shareholders

A General Meeting of Shareholders was held on 28 November 2025 to approve consolidation of shares on 40:1 basis. All 5 resolutions were carried in favour following voting via a poll.

Post-quarter, a General Meeting of Shareholders was held on 23 January 2026 to approve the acquisition of the Ninnis Gold Project and ratification of shares and options and to change the name of the Company to Vita Resources NL. All resolutions were carried in favour following voting via a poll.

Change of Company Name

Post quarter end all requisite approvals were received and the Company changed its name from “Bastion Minerals” to Vita Resources NL.

ASX Additional Information

Cash at the end of the quarter totalled \$309,000.

Pursuant to ASX Listing Rule 5.3.1, exploration and evaluation expenditure of \$97,000, as stated in section 2.1(d) and 8.2 of the attached Appendix 5B, was incurred across the December 2025 Quarter associated with geological consulting, field related activities and tenement compliance costs.
