DECEMBER 2025 QUARTERLY ACTITIVIES REPORT **30 January 2026**

HIGHLIGHTS

Mt Monger Gold Project

- Completed a comprehensive site review, confirming compelling drill targets across the project, particularly at the flagship Duchess of York Prospect[1]
- Notable historic intercepts including 40m at 2.49 g/t Au from 32m (Kiaki Soaks) and 20m at 2.87 g/t Au from 56m (Duchess of York)
- Secured all Program of Work (PoW) approvals from the WA mining regulator (DMIRS), enabling fast-tracked RC drilling campaigns at Duchess of York (1,800m) and Kiaki Soaks (1,200m) Prospects
- Drilling contractor engaged and campaigns scheduled to commence mid-March
- Executed a binding option agreement with Metallium Limited (MTM) to acquire up to 100% interest in the Mt Monger tenements

Leonora Gold Project

- Executed agreement to acquire 100% of five additional tenements contiguous with the Craigs Rest prospect
- This included two granted Prospecting Licences (P37/8463, P37/8469) and three applications (P37/9907, P37/10020, M37/8463), consolidating ~25km of the prospective Craig's Fault corridor
- Continued preparation for inaugural drilling campaign to expand the 63,000oz inferred gold resource[2]
- Site mapping completed in prior quarter and applications progressing to convert prospecting licences to mining leases

Bynoe Project

- Re-assays of 2024 RC drilling confirmed gold mineralisation, with best results including 6m at 1.52g/t Au from 78m (incl. 1m at 6.53g/t Au) and broad anomalous zones such as 48m at 0.19g/t Au from 4m

  Auger re-assays in progress and high-resolution geophysical campaign planned for H1 2026

Corporate

- Shareholder approval at the Annual General Meeting (AGM) on 25 November 2025 for name change from Evergold Minerals Limited to **Evergold Minerals Limited**

Evergold Minerals Limited (ASX: EG1) ("Evergold" or "the Company") reports on its quarterly activities for the period ending 31 December 2025. During the quarter, the Company changed its name to Evergold Minerals Limited underscoring the strategic pivot toward gold, complementing existing projects with high-potential assets near operating infrastructure.

EXPLORATION UPDATE

Mt Monger Gold Project

Following the acquisition of rights to the project in the prior quarter, Evergold's geology team completed an in-depth site review, including on-ground due diligence reconnaissance. This confirmed significant exploration potential with multiple high-quality, walk-up drill targets, especially at the flagship Duchess of York Prospect. The project offers a combination of scale, grade potential, and infrastructure advantages, including proximity to six operating gold mines, three mills (one within 5km), haul roads, and utilities.

Notable historic drilling intersections reconciled during the review included:

- 40m at 2.49 g/t Au from 32m (Kiaki Soaks)
- 9m at 5.02 g/t Au from 26m (Duchess of York)
- 3m at 17.6 g/t Au from 13m (Duchess of York)
- 6m at 3.63 g/t Au from 118m (Duchess of York)
- 20m at 2.87 g/t Au from 56m (Duchess of York)
- 4m at 5.01 g/t Au from 45m (Red Dale North)
- 2m at 3.27 g/t Au from 14m (Hickman's Find)

Early in the quarter, the Company secured PoW approvals from DMIRS, clearing the path for RC drilling to commence. The maiden campaign will target along-strike extensions and structural offsets at Duchess of York, while follow-up drilling at Kiaki Soaks aims to confirm the scale and orientation of mineralised zones. Drilling contractor engagement and site preparation were well advanced by quarter-end, with campaigns expected to start imminently.

Further consolidating its position, on 13 November 2025, Evergold executed a binding option agreement with MTM to acquire up to 100% interest in the project's tenements (E25/525, E25/531, E25/532, E25/536, E25/562, E25/565, E25/603, P25/2489, P25/2490)[3]. This enhances Evergold's exposure to the Bare Hill Shear Zone, a major structure hosting significant gold mineralisation in a district with +1.7Moz historical production[4].

Leonora Goldfield Project

During the quarter, the Company executed a binding Heads of Agreement with Mr. Ross Fredrick Crew to acquire 100% of five additional tenements directly north of the existing Craigs Rest package[5]. The acquired tenements comprise:

- Two Prospecting Licences granted: P37/8463 and P37/8469
- Three tenement applications: P37/9907, P37/10020, and M37/8463

This acquisition covers the interpreted northern extension of the Craig's Fault, the same highly prospective structure that hosts the 48,600 oz Craig's Rest resource and the historic Wilson's Patch mining area. This consolidated approximately 25 km of strike along this corridor. Immediate access to the ground has been granted, allowing exploration activities to commence without delay.

The project benefits from its location in the northern Goldfields near Leonora, near world-class deposits including King of the Hills (+4 Moz) and Sons of Gwalia (+6 Moz), as well as two large-scale gold processing plants within 40 km for potential toll treatment opportunities.

[5] *EG1 ASX Announcement, EG1 expands Queens Gold Project, Leonora, WA, dated 26 November 2025*

Applications to convert five prospecting licences in the Leonora Project to mining leases progressed, building on prior submissions and supporting future operations. The project benefits from excellent infrastructure, including proximity to sealed roads 200 m from targets, grid power, a regional workforce, and two large-scale gold mills within 40 km for potential toll treatment.

Bynoe Project

At the Bynoe Project, located 50 km south of Darwin in the Northern Territory, the Company has shifted its exploration focus to prioritise gold following encouraging results from the 2024 drilling program. In December 2025, Evergold announced re-assays of 1m splits from the 2024 RC program, confirming the presence of significant orogenic gold mineralisation within north-trending structural corridors[6]. These corridors are directly comparable to the geological settings that host multi-million-ounce deposits in the Pine Creek Orogen, including Tom's Gully (~3 Moz Au) and Mt Todd (~9.5 Moz Au).

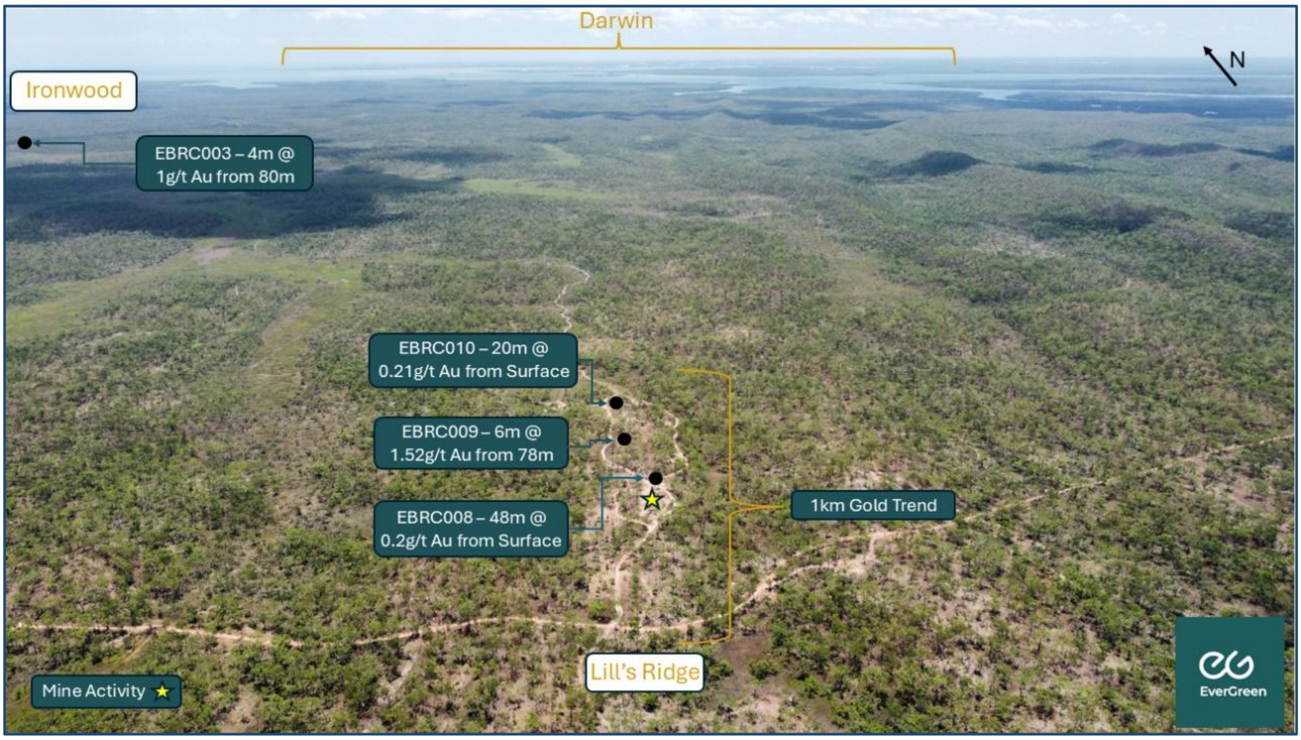

Figure 1: Bynoe Gold Prospects

6 EG1 ASX Announcement: New assay results confirm gold prospectivity at Bynoe, Northern Territory

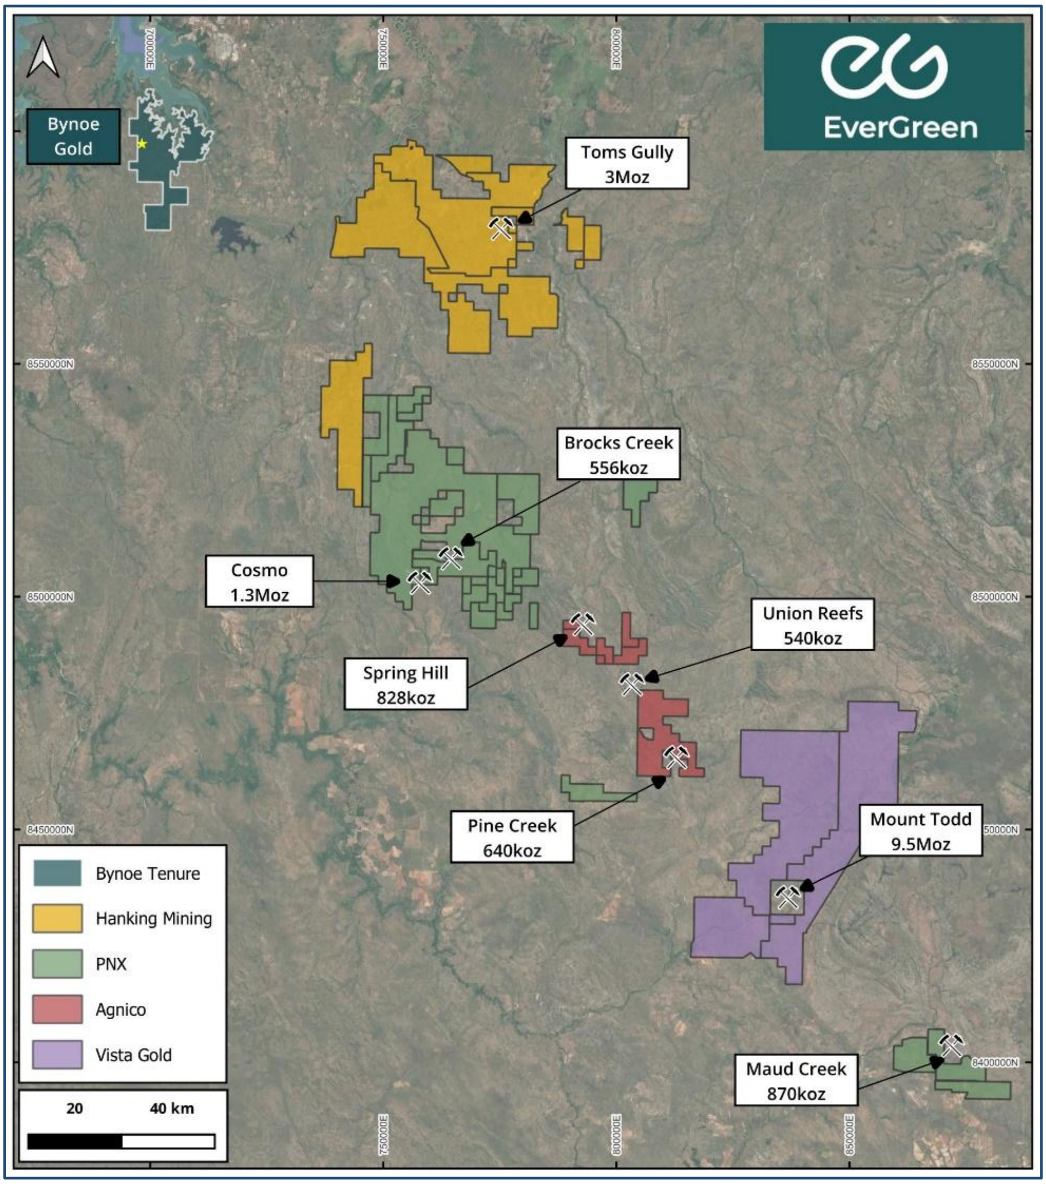

Figure 3: Evergold's Bynoe Gold Project location map

Key results include:

- 6m @ 1.52 g/t Au from 78 m, including 1m @ 6.53 g/t Au from 78 m

Broad anomalous gold zones from historical and recent drilling:

- 48m @ 0.19 g/t Au downhole from 4m (EBRC008 – Bynoe Ridge)
- 20m @ 0.21 g/t Au from surface (EBRC010 – Bynoe Ridge)
- 4m @ 1.02 g/t Au from 80m (EBRC003 – Ironwood)
- 1m @ 0.54 g/t Au from 1m (BYN0145 – Bynoe Ridge)

Field work uncovered remnants of historic gold workings aligned with key mineralised structures, further reinforcing the project's gold potential. Auger re-assays are currently in progress to refine gold distribution in anomalous zones. A high-resolution geophysical campaign is planned for the first half of 2026 to define priority drill targets.

CORPORATE AND FINANCIAL UPDATE

Name Change

On 25 November 2025, shareholders approved the name change to Evergold Minerals Limited at the AGM, with ASIC affecting the change on the same day and ASX recording it from 28 November 2025. The rebranding aligns with the Company's gold-focused portfolio in Tier-1 jurisdictions. The ASX ticker remains EG1.

Financial update

Cash and cash equivalents as at 31 December 2025 was $648k compared with $1,521k at 30 Sep 2025. Cash movements during the quarter included corporate and administration costs of $480k compared to $301k in Q1 FY26. The increase in the second quarter was driven by annual audit fees and insurance payments during the quarter. Additionally, there was an overall increase in consulting, legal and Company Secretary fees.

Staff costs were $143k for the quarter (previous quarter: $175k). Staff costs were lower in the current quarter due to a decrease in casual wages and salaries expenses. Exploration and evaluation expenditure increased to $253k (previous quarter: $148k). The increase for the current period primarily relates to increased expenditure on the Leonora Gold and Mt Monger projects (including acquisition costs).

Directors, being related parties of the Company, were remunerated to the amount of $142k in director and consulting fees during the quarter. An additional $4.4k was paid to a related entity of a director as settlement of rent expenses for the quarter.

Refer to the Appendix 5B for an overview of the Company’s financial activities during the quarter.

ABOUT EVERGOLD MINERALS
Evergold Minerals Limited (ASX: EG1) is an Australian exploration company focused on gold discovery and development in proven Tier-1 mining districts.

The company holds a portfolio of high-quality gold projects in Western Australia's Goldfields region:

- Leonora Goldfields Project (near Leonora) – hosts a JORC Inferred resource of 63,000 oz Au with high-grade historical intercepts (e.g. 5m @ 57.9 g/t Au); preparing inaugural drilling for resource expansion and upgrade.
- Mt Monger Gold Project (~70 km southeast of Kalgoorlie) – features wide historic intercepts (e.g. 40m @ 2.49 g/t Au at Kiaki Soaks, multiple high-grade zones at Duchess of York); maiden RC drilling approved and imminent targeting key prospects.

Competent Persons Statement

The information in this release that relates to Exploration Results or Mineral Resources is based on information compiled by Glenn Grayson who is a Member of the Australian Institute of Mining and Metallurgy (AusIMM). Mr. Grayson has sufficient experience that is relevant to the style of mineralisation and type of deposit under consideration and to the activity being undertaken to qualify as a Competent Person as defined in the 2012 Edition of the 'Australasian Code for Reporting of Exploration Results, Mineral Resources and Ore Reserve'. Mr. Grayson consents to the inclusion in the release of the matters based on his information in the form and context in which it appears. All exploration results reported have previously been released to ASX. The Company confirms it is not aware of any new information that materially affects the information included in the original announcement. The Company confirms that the form and context in which the Competent Person's findings are presented have not been materially modified from the original announcements.

Note: if the entity has reported positive relevant outgoings (ie a net cash inflow) in item 8.3, answer item 8.7 as "N/A". Otherwise, a figure for the estimated quarters of funding available must be included in item 8.7.

8.8 If item 8.7 is less than 2 quarters, please provide answers to the following questions:

8.8.1 Does the entity expect that it will continue to have the current level of net operating cash flows for the time being and, if not, why not?

Answer: The Company expects to have similar levels of operating cashflows; however, it closely monitors all expenditures, including exploration & evaluation expenditure. In the March 2026 quarter it is expected that net cashflows will move from a net deficit to a net surplus, as receipts from financing activities are received during the current quarter

8.8.2	Has the entity taken any steps, or does it propose to take any steps, to raise further cash to fund its operations and, if so, what are those steps and how likely does it believe that they will be successful?
Answer:	The Company is in advanced discussions regarding securing additional finance to enable the exploration, development and corporate operations to continue as per the Company's plan. Based on the completion of these discussions the Company expects to be in receipt of the further funds in the short term. The market will be kept fully informed as to the progress of such discussions.
8.8.3	Does the entity expect to be able to continue its operations and to meet its business objectives and, if so, on what basis?
Answer:	The Company expects to continue to meet its business objectives for the foreseeable future, on the basis of the funding program being finalised in the short term and as detailed in 8.8.1 and 8.8.2 above.

Note: where item 8.7 is less than 2 quarters, all of questions 8.8.1, 8.8.2 and 8.8.3 above must be answered.
