American Uranium is advancing one of the few near-term, ISR uranium projects in the U.S. AMU is positioned to deliver value from America's nuclear and uranium mining revival, with its flagship Lo Herma Project

Highlights

- **AMU shares now trade on North America's OTCID market under the code AMUIF**
- **OTC offers U.S. investors easy, real-time trading of AMU's ordinary shares, significantly expanding the pool of investors able to invest in AMU**

American Uranium Limited (ASX:AMU OTCID:AMUIF) (**American Uranium, AMU** or the **Company**) is pleased to advise that it has completed the requirements to change its ticker code for cross-trading of its securities on the OTCID Market in North America. AMU shares are now quoted on OTCID under the symbol "**AMUIF**", and investors can access further details via https://www.otcmarkets.com/stock/AMUIF/overview.

The OTCID® Venture Market offers investors transparent trading in entrepreneurial and development stage U.S. and international companies. To qualify for OTCID, companies must meet high financial & securities reporting standards, pass a bid test and undergo annual verification. As a verified market with access for U.S. investors, OTCID helps companies build shareholder value, achieve liquidity and a fair valuation. It will also enable AMU to expand awareness and broaden its range of potential investors into North America. Trading on OTC provides companies access to one of the largest investment markets in the world.

Bruce Lane, AMU CEO and Executive Director said *"We are pleased advise that AMU shares are now traded on OTCID under the ticker code AMUIF. The OTC listing is an important part of our strategy to promote AMU to investors in the US, the home of our uranium projects. OTC cross trading provides access to the large North American investment community & enhanced convenience for these investors to trade AMU shares. AMU's strategy is fundamentally North American focused, and our aim is to develop US based uranium resources for the resurgent US nuclear sector with a focus on our advanced Lo Herma project."*

American Uranium's shares are listed on the Australian Stock Exchange (**ASX**) under the code of AMU. The OTCID market's financial reporting standards and corporate governance requirements are satisfied through the Company's ongoing compliance with ASX Listing Rules. North American investors will find real-time $US quotes & information on the OTC Markets website. Trades take place and settle in the North American time zone in US Dollars (USD). The OTCID share is the same class of Ordinary Share as the ASX traded stock (ASX: AMU), not a synthetic. The shares are simply registered in two different Registries.
