MONUMENTAL ENERGY CLOSES PRIVATE PLACEMENT FINANCING

News Release - Vancouver, British Columbia – September 4, 2026: Monumental Energy Corp. (“**Monumental**” or the “**Company**”) (TSX-V: MNRG; FSE: ZA6; OTCQB: MNMRF) announces that the Company has closed a non-brokered private placement (the “**Private Placement**”), consisting of 620,000 units (the “**Units**”) at a price of CAD\$0.09 per Unit for gross proceeds of CAD\$55,800. Each Unit is comprised of one common share of the Company and one transferable common share purchase warrant (a “**Warrant**”). Each whole Warrant is exercisable to purchase one common share of the Company at a price of \$0.15 per share for a period of two (2) years from the closing date of the Private Placement.

The Company intends to use the proceeds of the Private Placement for general working capital purposes. No finder’s fees are payable in connection with the Private Placement.

All securities issued under the Private Placement and any common shares of the Company that are issuable upon the exercise of Warrants are subject to statutory hold period of four months and one day following the closing date of the Private Placement in accordance with applicable Canadian securities laws and the policies of the TSX Venture Exchange (the “**Exchange**”).

About Monumental Energy Corp.

Monumental Energy Corp. is an exploration company focused on the acquisition, exploration, and development of properties in the critical and clean energy sectors. The Company is building a strategic position in New Zealand’s onshore Taranaki Basin, targeting near-term oil production and longer-term natural gas development.

The Company has a funding agreement with New Zealand Energy Corp. (“**NZEC**”) targeting production optimization and workover opportunities across existing fields. The Company also holds securities of NZEC and a call option and royalty interest related to the Copper Moki wells.

Monumental additionally maintains exposure to the critical minerals sector through a 2% net smelter return royalty on Summit Nanotech’s interest in the Salar de Turi lithium project in Chile.

Neither the TSX Venture Exchange nor its Regulation Services Provider (as that term is defined in the policies of the TSX Venture Exchange) accepts responsibility for the adequacy or accuracy of this news release.

This news release does not constitute an offer to sell or a solicitation of an offer to buy nor shall there be any sale of any of the securities in any jurisdiction in which such offer, solicitation or sale would be unlawful, including any of the securities in the United States of America. The securities have not been and will not be registered under the United States Securities Act of 1933, as amended (the “1933 Act”) or any state securities laws and may not be offered or sold within the United States or to, or for account or benefit of, U.S. Persons (as defined in Regulation S under the 1933 Act) unless registered under the 1933 Act and applicable state securities laws, or an exemption from such registration requirements is available.

Forward Looking Information

This news release contains “forward-looking information or statements” within the meaning of applicable securities laws, which may include, without limitation, closing of the Private Placement, intended use of proceeds, carrying out future work on the Company’s oil and gas projects, other statements relating to the technical, financial and business prospects of the Company, its projects, its goals and other matters. All statements in this news release, other than statements of historical facts, that address events or developments that the Company expects to occur, are forward-looking statements. Although the Company believes the expectations expressed in such forward-looking statements are based on reasonable assumptions, such statements are not guarantees of future performance and actual results may differ materially from those in the forward-looking statements. Such statements are based on numerous assumptions regarding present and future business strategies and the environment in which the Company will operate in the future, including the price of metals and the price of oil and gas, the ability to achieve its goals, that general business and economic conditions will not change in a material adverse manner and that financing will be available if and when needed and on reasonable terms. Such forward-looking information reflects the Company’s views with respect to future events and is subject to risks, uncertainties and assumptions, including the risks and uncertainties relating to the interpretation of exploration results, risks related to the inherent uncertainty of exploration and cost estimates and the potential for unexpected costs and expenses and those other risks filed under the Company’s profile on SEDAR+ at www.sedarplus.ca. While such estimates and assumptions are considered reasonable by the management of the Company, they are inherently subject to significant business, economic, competitive and regulatory uncertainties and risks. Factors that could cause actual results to differ materially from those in forward looking statements include, but are not limited to, continued availability of capital and financing and general economic, market or business conditions, failure to secure personnel and equipment for work programs, adverse weather and climate conditions, risks relating to unanticipated operational difficulties (including failure of equipment or processes to operate in accordance with specifications or expectations, cost escalation, unavailability of materials and equipment, government action or delays in the receipt of government approvals, industrial disturbances or other job action, and unanticipated events related to health, safety and environmental matters), risks relating to inaccurate geological assumptions, failure to maintain or obtain all necessary government permits, approvals and authorizations, failure to obtain or maintain surface access agreements or understandings from local communities, land owners or Indigenous groups, fluctuation in exchange rates, the impact of viruses and diseases on the Company’s ability to operate, capital market conditions, restriction on labour and international travel and supply chains, decrease in the price of lithium, cesium and other metals, decrease in the price of oil and gas, loss of key employees, consultants, or directors, failure to maintain or obtain community acceptance (including from the Indigenous communities), increase in costs, litigation, and failure of counterparties to perform their contractual obligations. The Company does not undertake to update forward-looking statements or forward-looking information, except as required by law.
